PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Engineered and maintained **SIP/VoIP** infrastructure for a large-scale **Amazon Connect** platform, supporting thousands of concurrent calls and tens of thousands of agents.
- Developed and deployed **Python** scripts for automating operational tasks within the telecom infrastructure, reducing manual intervention by approximately **30%**.
- Managed and troubleshot customer issues related to telephony and call routing within the **Amazon Connect Customer** platform, ensuring high service availability.
- Designed and implemented **session border controller (SBC)** services for routing calls between **Amazon Connect Customer** and global telecom carriers.
- Participated in an on-call rotation for a **24/7 production environment**, responding to and resolving critical incidents impacting customer telephony services.
- Contributed to the expansion of the telecom infrastructure into new global regions, ensuring seamless connectivity and service delivery.
- Wrote and reviewed **Bash** shell scripts for system administration and log analysis on **Linux** servers supporting the telecom platform.

SKILLS

Telephony & VoIP – SIP, VoIP, Asterisk, FreeSWITCH, SIPp, SER, Session Border Controller (SBC)

Cloud Platforms – AWS, Amazon Connect, EC2, S3, Lambda, CloudWatch

Programming & Scripting – Python, Java, Bash, Shell, Perl, PHP, Ruby

Operating Systems – Linux

DevOps & SRE – Site Reliability Engineering (SRE), Systems Engineering, Systems Administration, DevOps, CI/CD, Jenkins, Docker

Databases – PostgreSQL, MySQL, Oracle

Networking – Network Administration, Service-Oriented Architecture (SOA), Web Services

PROJECTS

Global Telecom Carrier Connectivity Expansion

- Designed and provisioned network connectivity for new global telecom carriers, integrating them into the existing **Amazon Connect** platform infrastructure.
- Developed automated deployment scripts using **Python** and **Bash** to streamline the onboarding process for new carrier connections, reducing setup time by **40%**.
- Collaborated with cross-functional teams to ensure compliance with regional telecom regulations and service level agreements during expansion phases.

Automated Telecom Infrastructure Monitoring Tool

- Built a **Python**-based tool integrated with **AWS CloudWatch** to monitor key performance indicators of the Session Border Controller (SBC) service.
- Implemented automated alerting mechanisms that reduced incident detection time by an average of **25%**, allowing for faster issue resolution.
- Authored comprehensive documentation and runbooks for the monitoring tool, facilitating its adoption by the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
