HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Python** scripts for automating ETL processes and generating scheduled reports, processing approximately 1.5 TB of data weekly.
- Designed and implemented **Java Spring Boot** REST APIs to facilitate cross-service data exchange and integrate with enterprise systems, handling over 500 requests per second.
- Managed production support for enterprise **Java** applications, focusing on **SLA management** and P1/P2 incident response using **Splunk** and **Dynatrace**.
- Wrote **automated test suites** and integrated them into **CI/CD pipelines** using **Jenkins** and **GitLab** to ensure code quality for new features.
- Built **test tooling**, including mocks and simulators in **Python**, to validate complex system integrations and API endpoints.
- Debugged issues across the full stack, contributing to fixes for both **test automation code** and **production software** within Agile teams.
- Containerised applications using **Docker** and managed deployments on **AWS EC2** instances, ensuring environment consistency.

SKILLS

Languages – Python, Java, SQL, Shell Scripting

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools/Monitoring – Splunk, Dynatrace, Jira, Confluence

Testing – Test Automation, API Testing, UI Testing, Performance Testing, Load Testing, Reliability Testing

PROJECTS

Automated System Integration Testing Framework

- Engineered a **Python**-based framework for automated integration testing of multiple microservices, reducing manual testing effort by 40%.
- Developed **mock services** and **data generators** using **FastAPI** to simulate dependencies and edge cases for complex system interactions.
- Integrated the test framework into the **CI/CD pipeline** with **Jenkins**, enabling nightly runs and immediate feedback on build stability.

Performance and Reliability Testing Suite

- Designed and implemented automated **performance and load tests** for critical **Java Spring Boot** APIs using **JUnit** and custom Python scripts.
- Analyzed test results to identify bottlenecks, contributing to optimizations that improved average API response times by **18%** under simulated peak load.
- Documented test procedures and findings, facilitating root cause analysis for performance regressions and enhancing overall system reliability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
