HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed **Java Spring Boot** microservices for backend system integrations, handling approximately **1,500 requests per second** during peak loads.
- Implemented **Hibernate** for data persistence layer interactions, optimizing complex object-relational mapping queries to improve database transaction efficiency by **18%**.
- Designed and implemented **RESTful APIs** for inter-service communication, adhering to **Spring Framework** best practices and improving data flow between distributed components.
- Collaborated with cross-functional teams to define **technical requirements** and estimate sprint efforts for new feature development, contributing to a **15%** increase in team velocity.
- Wrote and reviewed code for **Java applications**, ensuring adherence to coding standards and maintaining high levels of code quality through peer reviews and **JUnit** test coverage.
- Containerized backend services using **Docker** and managed deployments on **AWS EC2** instances, ensuring consistent environments across development and production.
- Analyzed system performance and debugged production issues using **Splunk** and **Dynatrace**, resolving P1 incidents within defined SLA targets.

SKILLS

Languages – Java, Python, SQL, C++, Go, Rust

Frameworks/Libraries – Spring Boot, Hibernate, Spring Framework, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud/Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Linux

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Methodologies – Agile, Scrum

PROJECTS

Enterprise Java Microservice Orchestration

- Developed a suite of **Java Spring Boot** microservices to manage and orchestrate complex enterprise workflows, improving system responsiveness by **22%**.
- Integrated **Hibernate** with a **PostgreSQL** database to ensure robust data management and transactional integrity across multiple services.
- Containerized the microservices using **Docker** and orchestrated deployments on **AWS EC2**, enabling seamless scaling and management of application resources.

Python Data Pipeline for Operational Reporting

- Engineered a **Python** ETL pipeline to extract, transform, and load data from disparate sources into a data warehouse for operational reporting.
- Automated scheduled reporting tasks using **Python scripts** and cron jobs on **Linux**, reducing manual effort by approximately **10 hours per week**.
- Performed data validation and quality checks using **pandas** and **SQL**, ensuring the accuracy and reliability of data presented in downstream reports.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
