PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- **Screened** candidates against job descriptions, applying technical judgment to differentiate strong applicants for **Applied AI** and **Go-To-Market** roles.
- Managed intake sessions with hiring managers to define role requirements, calibrate candidate quality expectations, and assess market feasibility for scarce talent pools.
- Developed and maintained diverse candidate pipelines across **London**, **Paris**, and **Munich**, engaging passive talent for roles with no established market benchmarks.
- Ran structured, candidate-centric interview processes, ensuring adherence to high hiring bars and a positive candidate experience throughout the recruitment lifecycle.
- Collaborated with **People Partners** and **Compensation** teams to structure competitive offers and guide candidates to acceptance, successfully closing searches in fast-moving markets.
- Monitored and reported on pipeline health metrics, including conversion rates and time-in-stage, providing data-driven recommendations to hiring managers for search optimization.
- Containerized and deployed a Python-based candidate sourcing microservice using **Docker** on **AWS EC2**, improving data ingestion rates by **30%**.

SKILLS

Recruiting – Full-cycle recruiting, Candidate sourcing, Intake sessions, Interview processes, Offer structuring, Pipeline management, Talent acquisition

Technology Domain – Applied AI, Machine Learning, Go-To-Market (GTM), SaaS, Technology hiring

Markets – EMEA, UK, European markets, London, Paris, Munich, Germany, France

Tools – Greenhouse, ATS platforms, Jira, Confluence, Splunk, Dynatrace, CloudWatch

Languages – Python, Java, SQL, R

Cloud & DevOps – AWS, Docker, EC2

PROJECTS

Applied AI Talent Pipeline Development (HCL Technologies)

- Built and scaled a Python-based candidate sourcing framework using **Pandas** and **SQL** to identify passive talent in niche **Applied AI** domains.
- Developed automated data ingestion pipelines from multiple HR platforms into a central PostgreSQL database, improving data accuracy for pipeline analysis by **28%**.
- Designed and implemented a REST API using **FastAPI** to surface aggregated candidate data to the internal recruiting dashboard, enabling faster outreach.

GTM Role Scoping & Market Analysis (HCL Technologies)

- Developed detailed role profiles and calibrated hiring expectations for **Go-To-Market** positions by analyzing market compensation trends and talent availability across **EMEA**.
- Created a standardized process for conducting intake sessions, reducing average time-to-definition by **15%** and ensuring clearer alignment with hiring managers.
- Authored comprehensive market intelligence reports used by senior leadership to inform talent acquisition strategy for new technology hubs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
