HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Python** data pipelines for ETL processes, transforming and loading data from various sources into analytical repositories, processing approximately **1.5 TB** of data weekly.
- Designed and implemented **Java Spring Boot** REST APIs to support new feature development and enable cross-service data exchange, handling up to **500 requests per second** during peak loads.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring adherence to strict SLAs, resolving an average of **15 critical alerts** per shift.
- Collaborated with product managers and business stakeholders to translate requirements into technical specifications for new application features, participating in daily **Agile** ceremonies and sprint planning.
- Wrote and optimized complex **SQL** queries across **PostgreSQL** and **MySQL** databases for data validation, ad-hoc reporting, and schema modification, supporting a team of 5 analysts.
- Containerized microservices using **Docker** and deployed them to **AWS EC2** instances via **Jenkins** CI/CD pipelines, streamlining the deployment process and reducing manual intervention by **40%**.
- Contributed to the development of an internal feature store using **Python** and **pandas**, enabling data scientists to access and manage curated datasets for ML model training.

SKILLS

Programming Languages – Python, Java, SQL, R, JavaScript

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI, Node.js, React.js

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, CI/CD, Serverless Architecture

Databases – PostgreSQL, MySQL, Oracle, Relational Databases

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, ETL, Statistical Analysis, Machine Learning Concepts

Methodologies & Tools – Agile, Scrum, Kanban, Jira, Confluence, Git, Splunk, Dynatrace

PROJECTS

HCL Enterprise Systems Integration Suite

- Developed a suite of **Java Spring Boot** microservices to integrate disparate enterprise business systems, including ERP modules, through **REST APIs** and direct database connections.
- Implemented robust data transformation logic using **Python** and **pandas** for ETL processes between systems, ensuring data consistency and accuracy across a complex data landscape.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for cross-system integrations, ensuring smooth post-go-live support for a team of 8.

MSc Applied Data Analytics - Customer Behavior Modeler

- Built and evaluated predictive models using **scikit-learn** and **Python** on a **~115,000-record** customer transaction dataset to identify purchasing patterns, achieving an **AUC of 0.82**.
- Engineered relevant features using **pandas**, including recency, frequency, and monetary value (RFM) metrics, to enhance model performance and interpretability.
- Visualized model insights and key performance indicators using **Power BI**, creating interactive dashboards for academic supervisors to track progress and understand analytical findings.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
