PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Oversaw third-party fund administrators, ensuring adherence to SLAs and timely, accurate reporting for collective investment schemes.
- Monitored daily processing of investor dealings and resolved complex investor enquiries, maintaining high service levels.
- Reviewed administrator calculations for investor-dealing-related fees, including entry and exit costs, ensuring accuracy.
- Prepared and delivered monthly management reporting, including detailed reports for the Management Company and Board.
- Performed monthly oversight and regulatory checks, covering Ultimate Beneficial Owner (UBO), ongoing charges, and SRRI/SRI reviews.
- Developed and maintained policy, procedures, and process flows to meet evolving internal control and external compliance requirements.
- Containerized Java Spring Boot services with Docker and deployed to an AWS EKS cluster, managing configuration via Helm charts.

SKILLS

Financial Services – Fund Administration, Investor Oversight, Transfer Agents, Depositaries, Investment Managers, Collective Investment Schemes, Management Reporting, Regulatory Checks, UBO, Ongoing Charges, SRRI, SRI

Core Skills – SLA Management, Client Delivery, Risk Management, Policy Development, Process Improvement, Change Management, Communication, Reporting, Quality Assurance

Programming Languages – Java, Python, SQL, R, DAX

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Hibernate, JPA

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Helm, Jenkins, Git

BI & Analytics – Power BI, Tableau, Power Query, Data Modelling, Data Warehousing

PROJECTS

Enterprise Financial Operations Dashboard Enhancement

- Developed new Java Spring Boot microservices to process and monitor inbound financial transaction messages, integrating with PostgreSQL for data persistence.
- Implemented automated Python scripts for ETL processes, transforming raw transaction data into a structured format for the operations dashboard, reducing manual data handling by 40%.
- Refined SQL queries and database schema on Oracle for improved performance of reconciliation workflows and transaction monitoring reports, cutting query times by an average of 30%.

MSc Data Analytics Applied Project: Fund Performance Reporting

- Designed and built interactive Power BI dashboards to visualize key performance indicators (KPIs) for Irish domiciled investment schemes, integrating data from multiple vendor feeds.
- Developed complex DAX measures and Power Query transformations to clean and model financial data, enabling accurate calculation of ongoing charges and investor-related fees.
- Presented final dashboard findings and analytical insights to MSc project stakeholders, demonstrating the value of data visualization for oversight functions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
