HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing **REST APIs** for cross-service data exchange and handling approximately 1,500 requests per second during peak hours.
- Engineered and optimized **SQL queries** across PostgreSQL and Oracle databases, supporting complex data extraction and validation tasks for financial reporting, reducing query execution time by an average of **18%**.
- Designed and implemented **JPA/Hibernate** entities and mappings for a core banking system module, ensuring efficient data persistence and retrieval for **~20,000** daily transactions.
- Collaborated with client-facing teams to translate complex business requirements into scalable technical solutions for the **RiskMonitor® platform**, ensuring alignment with industry standards.
- Investigated and resolved intricate client queries related to risk analytics, methodology, and data reporting, acting as a key technical point of contact for Dublin-based clients.
- Contributed to the adoption of emerging technologies by supporting the development of **data services and APIs** within a cloud-based data architecture.
- Containerized applications using **Docker** and managed deployments on **AWS EC2** instances, integrating with **Jenkins** for automated build and deployment pipelines.

SKILLS

Core Development – Java, Spring Boot, JPA, Hibernate, REST APIs, Python, R, MATLAB

Databases – SQL, PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Financial Risk & Analytics – RiskMonitor®, Portfolio Analytics, Exposure Monitoring, Market Risk, Liquidity Risk, Asset Classes (Equities, Fixed Income, Derivatives, FX)

Data & BI – Data Enablement, Data Architectures, Microsoft Fabric, Power BI, DAX, Power Query

Client Engagement – Stakeholder Management, Requirements Gathering, Problem-Solving, Communication

PROJECTS

RiskMonitor® Quantitative Analytics Enhancement (HCL Technologies)

- Developed new **quantitative analytics** and risk calculation capabilities for the **RiskMonitor® platform**, enhancing stress testing scenarios across multiple asset classes.
- Designed and implemented **SQL schemas** and optimized queries to improve data accessibility and reporting performance for key risk metrics, processing datasets of over **500,000** records.
- Collaborated with internal product teams to translate business requirements into scalable platform features, contributing to the platform's core risk calculation engine.

Client Data Access API Development (HCL Technologies)

- Built and maintained **Java Spring Boot REST APIs** to provide clients with secure access to portfolio and risk data, handling approximately **1,200** requests per minute.
- Integrated API services with **PostgreSQL** databases and implemented authentication mechanisms to ensure data integrity and security for sensitive financial information.
- Worked directly with enterprise clients to understand their data consumption needs and delivered technical walkthroughs for the new API endpoints.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
