PROJECTS

Salesforce Sales Cloud Enhancement for Client Onboarding

- Configured **Salesforce Sales Cloud** to streamline the client onboarding process, reducing manual data entry by 30% through custom fields and validation rules.
- Developed interactive **demos** for key stakeholders, illustrating new lead management workflows and gathering feedback to refine the user experience.
- Documented functional specifications and user guides for the enhanced onboarding module, ensuring clear adoption pathways for the client's operations team.

CPQ Implementation for Enterprise Sales

- Implemented **Salesforce CPQ** (Configure, Price, Quote) functionality to automate product configuration and pricing for complex enterprise sales cycles.
- Collaborated with the sales team to define and map business requirements, ensuring the CPQ solution accurately reflected product catalogs and pricing strategies.
- Managed the end-to-end delivery of the CPQ solution, including testing and user acceptance, supporting a 15% increase in quote generation efficiency.
