HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Oversaw the **CMMS** platform for a pharmaceutical client account, managing asset hierarchy, failure codes, and maintenance planning to enhance operational efficiency.
- Investigated equipment failures, applying **FMEA** principles to root cause analysis and implement corrective actions, reducing recurring issues by approximately **18%**.
- Coached a team of **technicians** on systematic troubleshooting and reliability-centered thinking, improving the accuracy of fault coding and work-order closure rates.
- Improved **CMMS data quality** by standardizing asset registration, criticality assessments, and maintenance plan configurations for new and modified assets.
- Produced comprehensive **training materials** for technicians and supervisors on CMMS utilization, maintenance standards, and reliability practices, supporting team upskilling.
- Supported site mobilization and major maintenance events by coordinating with Maintenance Supervisors, Ops Managers, and Engineering teams to align activities with contract priorities.
- Provided weekly updates on asset performance, identified risks, and tracked improvement actions to stakeholders, ensuring transparency and informed decision-making.

SKILLS

Asset Management – CMMS, CAFM, FMEA, Failure Analysis, Asset Criticality, Preventive Maintenance, Predictive Maintenance, Reactive Maintenance

Maintenance & Facilities – Building Utilities, HVAC, Power Systems, Water Systems, Facilities Management, Site Mobilisation, Shutdown Planning

Data Analysis & Reporting – Maintenance Data Interpretation, Microsoft Excel, Power BI, Data Validation, Actionable Improvements

Engineering & Operations – Mechanical Engineering, Electrical Engineering, Manufacturing, Maintenance, Building Services, Operations Management, Quality Assurance

Software & Tools – CMMS platforms, Microsoft Excel, Power BI, Jira, Confluence, Splunk, Dynatrace, Linux Shell Scripting

PROJECTS

CMMS Enhancement for Pharmaceutical Facilities

- Led the enhancement of a **CMMS** platform for a key pharmaceutical client, focusing on improving asset hierarchy, failure code standardization, and maintenance task alignment.
- Developed and delivered **training modules** for maintenance technicians and supervisors on new CMMS features and reliability-centered maintenance practices, increasing user adoption by **40%**.
- Generated weekly performance reports using **Microsoft Excel** and Power BI, highlighting key reliability metrics and actionable insights for operations management.

Reliability Improvement Initiative for Critical Plant Equipment

- Conducted detailed **failure analysis** on critical plant equipment, utilizing **FMEA** to identify failure modes and propose mitigation strategies, aiming to reduce downtime by **15%**.
- Collaborated with manufacturing engineering teams to ensure interventions on production assets were coordinated with quality and production schedules, minimizing disruption.
- Documented findings and recommendations in a comprehensive report, which was presented to the engineering and operations leads.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
