HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **CI/CD pipelines** using **Jenkins** and **Git** for automated builds, testing, and deployments, reducing manual intervention by **40%**.
- Managed and scaled **AWS infrastructure** including **EC2** instances, **S3** buckets, and **Lambda functions** to support application growth and ensure high availability.
- Developed and maintained **containerized applications** using **Docker** and orchestrated deployments on a **Kubernetes** cluster, enhancing deployment consistency and resource utilization.
- Collaborated with engineering teams to define and implement **pipeline automation** strategies, improving the efficiency of code integration and release processes.
- Provided **production support** for critical enterprise applications, resolving P1/P2 incidents and performing root cause analysis to prevent recurrence.
- Authored detailed **technical documentation** and runbooks for deployed systems, facilitating knowledge transfer and streamlining operational procedures.
- Implemented **Linux system administration** tasks, including shell scripting for automation, log analysis with **Splunk**, and cron job scheduling for routine operations.

SKILLS

Languages & Scripting – Python, Bash, Go, Java

DevOps & CI/CD – Git, Jenkins, Docker, Kubernetes, GitHub Actions, ArgoCD

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Infrastructure as Code

Operating Systems – Linux/Unix

Networking – Networking Fundamentals

Tools – Jira, Confluence, Splunk, Dynatrace, Terraform, Ansible

PROJECTS

Automated Deployment Pipelines for Microservices

- Engineered end-to-end **CI/CD pipelines** using **Jenkins** and **Docker** to automate the build, test, and deployment of microservices to a **Kubernetes** environment.
- Integrated **Git workflows** with pipeline configurations to manage code branching strategies and enable automated rollbacks, improving release stability.
- Developed shell scripts for environment provisioning and configuration management on **Linux** servers, reducing manual setup time by **30%**.

AWS Infrastructure Management and Scaling

- Designed and deployed scalable **AWS infrastructure** components, including auto-scaling **EC2** groups and **S3** for artifact storage, to support varying application loads.
- Implemented **Lambda functions** for event-driven automation tasks, such as processing S3 uploads and triggering notifications via **CloudWatch**.
- Managed infrastructure configurations using **Terraform**, ensuring consistent and repeatable deployments across development, staging, and production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
