HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **CI/CD pipelines** for microservices using **Jenkins** and **GitLab CI**, reducing deployment time by **30%**.
- Managed and automated infrastructure deployments on **AWS** using **Terraform**, ensuring consistent environment configurations across development, staging, and production.
- Implemented containerization for applications using **Docker** and orchestrated deployments with **Kubernetes**, improving application portability and scaling efficiency.
- Automated routine system administration tasks on **Linux** servers through **Bash scripting**, reducing manual intervention for common operations by **~40%**.
- Configured and managed **observability tools** like **Splunk** and **Dynatrace** for monitoring application health and performance, aiding in rapid incident response.
- Collaborated with software engineering teams to integrate development workflows, focusing on build automation, testing, and release management processes.
- Participated in the design and implementation of **Python-based ETL pipelines** for data ingestion and transformation, supporting downstream analytics and reporting.

SKILLS

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Terraform, Ansible, CloudFormation

CI/CD & DevOps Tools – Jenkins, GitHub Actions, GitLab CI, ArgoCD, Docker, Kubernetes, Helm

Languages & Scripting – Python, Bash, Go, Java

Version Control & Collaboration – Git, Jira, Confluence

Operating Systems & Networking – Linux, Unix, TCP/IP

Observability & Monitoring – Splunk, Dynatrace

PROJECTS

Automated Build and Deployment Pipeline for Microservices

- Engineered an end-to-end **CI/CD pipeline** using **Jenkins** and **Docker** to automate the build, testing, and deployment of Java Spring Boot microservices.
- Integrated automated security scanning and unit testing stages into the pipeline, catching **~90%** of common vulnerabilities before code merged to main.
- Managed pipeline configurations and artifact storage on **AWS S3**, ensuring reliable access for deployment targets.

Infrastructure as Code for AWS Environment Provisioning

- Developed reusable **Terraform** modules to provision and manage **AWS** infrastructure, including EC2 instances, VPCs, and S3 buckets for a distributed application.
- Implemented state management and collaborative workflows for **Terraform**, enabling a team of 4 engineers to manage the infrastructure safely.
- Wrote comprehensive documentation and runbooks for infrastructure provisioning and maintenance procedures.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
