HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices for a high-traffic work management platform, handling critical user requests and data persistence.
- Designed and implemented **RESTful APIs** within a complex microservices ecosystem, facilitating seamless data exchange between various platform components.
- Collaborated with a distributed team of engineers to deliver end-to-end features, participating actively in **Agile ceremonies** and sprint planning sessions.
- Wrote and executed comprehensive **JUnit and integration tests** for new features and bug fixes, ensuring code quality and system stability across the platform.
- Contributed to the design and architecture discussions for new platform services, focusing on scalability and maintainability in a distributed systems environment.
- Containerized backend services using **Docker**, preparing them for deployment within a cloud-native infrastructure and ensuring consistent runtime environments.
- Managed and resolved production issues, performing root cause analysis and implementing fixes to maintain high availability for a critical enterprise system used by thousands of engineers.

SKILLS

Languages – Java, SQL, Python, R

Frameworks & Libraries – Spring Boot, Spring, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI, React, Angular

Databases – Oracle, PostgreSQL, MySQL, Redis, Solr

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Linux

Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile, Scrum, REST APIs, Microservices, CI/CD

PROJECTS

Enterprise Task Management Service (Java Spring Boot)

- Engineered a **Java Spring Boot** microservice to manage core task creation and update workflows for an internal enterprise system, integrating with an **Oracle database**.
- Implemented robust error handling and logging mechanisms using **Spring Boot Actuator** and custom wrappers, reducing critical incident response time by 15%.
- Developed comprehensive API documentation and integration examples for downstream consumer services, facilitating smoother adoption by other engineering teams.

Backend Service for Issue Tracking Platform (Java + PostgreSQL)

- Built a scalable backend service using **Java** and **Spring Data JPA** to support a large-scale issue tracking platform, handling over 5,000 concurrent users.
- Designed and implemented database schema changes and optimized **PostgreSQL** queries to improve data retrieval performance by approximately 20% for key reporting functions.
- Containerized the service with **Docker** and configured basic CI/CD integration using **Jenkins**, enabling automated builds and deployments to staging environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
