HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python** backend web services and **REST APIs** for data processing automation, handling **~3,500 events/sec** at peak load.
- Developed and maintained analytics products, including **Snowflake** data models and **Power BI** dashboards, surfacing actionable insights for **HR leadership**.
- Operated and maintained production services on **Linux** servers via SSH, diagnosing and resolving issues related to processes, networking, and file systems.
- Managed incremental refresh and caching strategies for **Snowflake** ETL pipelines, ensuring efficient data updates for downstream analytics.
- Confirmed data and system behavior by measuring against live systems, identifying and correcting subtle data inaccuracies in **analytical reports**.
- Containerized Python web services using **Docker**, troubleshooting networking and runtime issues in development and staging environments.
- Owned the end-to-end delivery of people analytics features, including requirements gathering, development, testing, and production deployment with minimal direction.

SKILLS

Data Modeling & Warehousing – Snowflake, SQL, ETL, Data Schemas, Incremental Refresh, Caching Strategies

Backend Development – Python, Flask, FastAPI, REST APIs, Web Services

Operations & Infrastructure – Linux, SSH, Docker, Production Support, System Monitoring

Analytics & BI – Power BI, Dashboards, Data Visualization, HR Analytics, People Analytics

Methodologies & Practices – Agile, Scrum, CI/CD, Code Review, Data Security, Data Privacy

PROJECTS

Employee Performance Analytics Dashboard (MSc Applied Project)

- Developed a **Python**-based ETL pipeline to ingest and transform employee performance data from HR systems into a **Snowflake** data warehouse.
- Built interactive **Power BI** dashboards to visualize key performance indicators, including employee retention rates and training completion metrics, for senior HR stakeholders.
- Implemented row-level security within the dashboard to ensure compliance with **data privacy** regulations and restrict access to sensitive employee information.

Automated HR Data Reporting Service (HCL Technologies)

- Engineered a **Python** service on **AWS Lambda** that automatically generated and distributed weekly HR reports, reducing manual effort by **~15 hours/week**.
- Integrated the service with **PostgreSQL** for data extraction and utilized **Linux** cron jobs for scheduled execution, ensuring reliable report delivery.
- Wrote comprehensive documentation and provided knowledge transfer to the operations team for ongoing maintenance and support of the reporting service.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
