HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for core platform services, handling request validation and implementing circuit-breaker patterns for improved resilience.
- Designed and implemented **Hibernate** mappings and JPQL queries to manage persistence for a PostgreSQL database, ensuring data integrity across complex entity relationships.
- Wrote comprehensive **JUnit** and Mockito tests for new Java features, achieving over 85% code coverage and integrating them into the Maven build lifecycle.
- Built developer tools and frameworks in **Java** to enhance the quality and efficiency of the Radar platform's testing workflows.
- Contributed to the design and implementation of automated testing strategies for **REST APIs**, utilizing common testing and reporting tools like Maven and TestNG.
- Participated in **code reviews** and technical estimations for new features within an Agile Scrum team, ensuring adherence to best practices and maintainable code.
- Containerized platform services using **Docker** and deployed them to AWS EC2 instances, managing configurations and basic resource allocation.

SKILLS

Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, Maven, TestNG, Allure

Methodologies – Agile, Scrum, SDLC

Testing – Software Testing Fundamentals, Test Design, API Testing

PROJECTS

Java Platform Test Automation Framework

- Engineered a **Java**-based test automation framework using **Spring Boot** and **JUnit** to validate core platform functionalities, reducing manual regression testing effort by approximately 40%.
- Integrated the framework with **Jenkins** CI/CD pipelines to provide continuous feedback on code quality and stability during development cycles.
- Developed reusable test components and utilities to ensure consistent and efficient test execution across multiple platform services.

Internal Developer Tooling with Python

- Developed a **Python** CLI tool to automate the generation of boilerplate code for new microservices, significantly reducing setup time for new development tasks.
- Integrated the tool with **Git** for version control and added features for dependency management, improving consistency in project initialization.
- Designed a simple REST API endpoint using **Flask** to expose tool functionality for potential integration into broader developer workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
