HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python** scripts to automate data ingestion and transformation for internal reporting, reducing manual processing time by approximately **30%**.
- Managed production incidents for enterprise Java applications, performing **root cause analysis** and coordinating resolution within strict **SLA** targets.
- Developed and maintained **Java Spring Boot** REST APIs for inter-service communication, ensuring **API contract** adherence and implementing robust error handling.
- Engineered **SQL** queries and database schema modifications for PostgreSQL and Oracle databases to support new feature development and data validation.
- Containerized existing Java applications using **Docker**, facilitating consistent deployment across development and staging environments.
- Participated in **agile development** ceremonies, including sprint planning and daily stand-ups, contributing to technical estimations and code reviews.
- Configured and maintained **Jenkins** CI/CD pipelines to automate build, test, and deployment processes, improving deployment frequency by **20%**.

SKILLS

Languages – Python, Java, SQL, Go, Rust, Swift

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Linux

CI/CD & Tools – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, TDD, Site Reliability Engineering

Core Concepts – Distributed Systems, Observability, Alerting, Fleet Management, System Provisioning

PROJECTS

Automated Data Pipeline for Operational Monitoring

- Developed a **Python**-based ETL pipeline to extract, transform, and load data from disparate sources into a centralized PostgreSQL database for an enterprise client.
- Implemented data validation checks within the pipeline to ensure data integrity, catching approximately **95%** of malformed records before ingestion.
- Designed and built **REST APIs** using Flask to expose processed data for consumption by downstream operational dashboards.

Reliability Enhancement for Production Services

- Analyzed **Splunk** logs and **Dynatrace** metrics to identify performance bottlenecks and failure patterns in critical Java applications.
- Implemented automated alerting rules in CloudWatch based on identified failure patterns, reducing the Mean Time To Detect (MTTD) for critical incidents by **40%**.
- Documented incident response procedures and system configurations in **Confluence**, contributing to faster resolution times for the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
