HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained native macOS and iOS applications for Radar, Apple's internal issue-tracking platform, using **Swift** and **SwiftUI**.
- Implemented new features and fixed bugs in a large, long-lived codebase, ensuring performance and reliability across multiple releases for a high-traffic, business-critical system.
- Collaborated with a distributed team of engineers on end-to-end feature development, participating in design discussions and contributing to technical estimations within an Agile framework.
- Gained practical experience with **SwiftUI**, **AppKit**, and **UIKit** for building native Apple platform applications within **Xcode**.
- Managed code versions and contributed to the software development lifecycle using **Git**, participating in code reviews and adhering to established development practices.
- Integrated client applications with backend services by consuming **REST APIs**, ensuring seamless data flow and functionality.
- Wrote and executed unit and UI tests using **XCTest** to ensure code quality and application stability.

SKILLS

Languages – Swift, SQL, Python, Java

Apple Platforms – SwiftUI, AppKit, UIKit, Xcode, XCTest

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Tools & Technologies – Git, Docker, Jenkins, Jira, Confluence, PostgreSQL, MySQL, Oracle, Splunk, Dynatrace, AWS

Methodologies – Agile, Scrum, REST API Design, Object-Oriented Design, Protocol-Oriented Design

PROJECTS

Radar iOS Client Feature Development

- Engineered new user-facing features for the Radar iOS application, focusing on intuitive design and seamless integration with existing workflows.
- Refactored critical UI components using **SwiftUI** to improve performance and maintainability, reducing rendering times by approximately **18%**.
- Collaborated with product managers and senior engineers to translate user requirements into actionable development tasks and technical specifications.

Internal Issue Tracking System Enhancements

- Developed enhancements for a core internal issue tracking system, improving data visualization and reporting capabilities for engineering teams.
- Implemented robust error handling and logging mechanisms using **XCTest** to ensure application stability and facilitate faster debugging cycles.
- Contributed to the migration of older Objective-C components to modern **Swift**, modernizing the codebase and improving developer experience.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
