HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot microservices**, building REST APIs for cross-service data exchange and handling approximately **4,000 requests per second** during peak load.
- Implemented persistence layers using **Hibernate and JPA**, managing entity relationships and optimizing queries for a core data processing module, reducing average query time by **18%**.
- Authored **JUnit and Mockito tests** for new Java features, achieving **85% unit test coverage** for critical service components and reducing post-deployment defects.
- Contributed to **code reviews** for junior engineers, ensuring adherence to coding standards and improving overall code quality within the team.
- Participated in **Agile ceremonies**, including sprint planning and daily stand-ups, providing technical estimations for feature development.
- Containerized **Java applications** using Docker and deployed them to an AWS environment, managing configurations for EC2 instances and S3 buckets.
- Wrote and executed **integration tests** for new backend features, ensuring seamless interaction between microservices and upstream/downstream systems.

SKILLS

Languages – Java, SQL, Python, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Databases – Oracle, PostgreSQL, MySQL, Redis, Solr

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, RStudio

Concepts – Microservices, Distributed Systems, REST APIs, Object-Oriented Design, Data Structures, Algorithms, Agile Methodologies, Change Management

PROJECTS

Enterprise Java Service Orchestration Platform

- Engineered a suite of **Java Spring Boot microservices** to manage complex workflows for an enterprise client's operational reporting needs.
- Integrated a **Hibernate-based data access layer** with an Oracle database, processing over **50,000 daily transaction records** for reporting aggregation.
- Developed robust **REST APIs** for inter-service communication, ensuring high availability and fault tolerance in a production environment.

Backend Service for Work Item Tracking

- Designed and implemented **Java backend services** for a work item tracking system, handling core logic for task creation and status updates.
- Built out **API endpoints** using Spring Boot, interacting with a PostgreSQL database to persist and retrieve item data for approximately **1,500 active users**.
- Containerized the service using **Docker** for consistent deployment across development and staging environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
