HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python** backend web services and REST APIs using **FastAPI**, handling approximately 1,500 requests per second during peak loads for analytics data delivery.
- Developed and maintained **analytics products** and dashboards, surfacing actionable insights on employee recruitment and retention metrics to HR leadership.
- Managed and operated production **Linux** servers independently via SSH, diagnosing and resolving issues related to processes, file systems, and network performance.
- Built and deployed containerized applications using **Docker**, troubleshooting networking and runtime issues within the development and staging environments.
- Modeled employee data, ensuring compliance with **row-level security** and data-access restrictions, adhering to strict legal data privacy responsibilities.
- Owned end-to-end delivery of analytics features, from initial requirements gathering to production deployment and ongoing operation with minimal direction.
- Confirmed system behavior and data accuracy by directly measuring against live systems, rather than relying solely on documentation or generated code explanations.

SKILLS

Databases – Snowflake, SQL, PostgreSQL, MySQL, Oracle

Backend Development – Python, FastAPI, Flask, REST APIs, Web Services

Infrastructure & Operations – Linux, SSH, Docker, Kubernetes, AWS

Data Analytics & BI – Analytics Products, Dashboards, Data Modeling, Data Visualization, ETL

AI & Machine Learning – Agentic AI Coding Tools, Claude Code, Data Security, Data Privacy

Methodologies – Agile, Scrum, Change Management, Stakeholder Management

PROJECTS

People Analytics Dashboard for HR Operations

- Developed a comprehensive **analytics dashboard** in Python, visualizing key HR metrics related to employee onboarding and development for senior leadership.
- Modeled and transformed employee data using **SQL** and Python scripts, ensuring accurate reporting on recruitment funnels and retention rates.
- Deployed and managed the dashboard service on **Linux** infrastructure, establishing automated refresh cycles for up-to-date insights.

Employee Data Pipeline with Snowflake & FastAPI

- Engineered an end-to-end data pipeline to ingest and process employee data into a **Snowflake** data warehouse, supporting incremental refresh strategies.
- Built a **FastAPI** service to expose curated employee analytics data via REST APIs, enabling consumption by downstream reporting tools and teams.
- Implemented data validation checks and error handling within the pipeline, confirming data integrity before loading into the target warehouse.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
