HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented RESTful APIs using **Java Spring Boot** for core application services, handling approximately 4,000 requests per minute during peak loads.
- Developed and maintained **Hibernate** entities and JPQL queries to interact with PostgreSQL databases, ensuring data integrity and efficient retrieval for reporting modules.
- Authored and executed comprehensive unit tests using **JUnit** and Mockito for critical Java components, achieving over 90% code coverage for new feature development.
- Contributed to the design and implementation of quality assurance frameworks and tools in **Java** and **Python** to enhance the testing of internal development platforms.
- Wrote and reviewed code for new features and bug fixes, participating in daily stand-ups and sprint planning meetings within an Agile/Scrum environment.
- Collaborated with senior engineers to investigate and resolve complex production issues, contributing to the stability of a high-traffic, business-critical system used across multiple organizations.
- Containerized application services using **Docker** and deployed them to a managed Kubernetes cluster on **AWS**, configuring basic resource limits and health checks.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, Hibernate, JUnit, Mockito, pandas, NumPy, scikit-learn, TestNG, Allure

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, RStudio

Concepts – Object-Oriented Design, Data Structures, Algorithms, Software Testing Fundamentals, REST APIs, CI/CD, Agile Methodologies

PROJECTS

Java Application Quality Tooling

- Developed a **Java**-based framework to automate API testing for internal services, integrating with **TestNG** and generating reports with **Allure**.
- Implemented reusable test components and assertion libraries within the framework, reducing manual test case creation time by an estimated 30%.
- Integrated the testing framework into **Jenkins** pipelines, enabling automated execution and reporting upon code commits for selected microservices.

Python-based Developer Workflow Enhancements

- Created **Python** scripts to automate common developer tasks, including code linting and dependency checks, improving consistency across the team.
- Built a command-line interface tool using **FastAPI** for developers to quickly provision local development environments, reducing setup time from hours to minutes.
- Designed and implemented data validation checks for configuration files using **pandas**, catching common errors before deployment and improving system stability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
