PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and managed **AWS EC2 instances**, **S3 buckets**, and **Lambda functions** to support scalable backend services for enterprise customers.
- Automated routine system checks and reporting tasks using **Python scripts**, reducing manual effort by approximately **15 hours per week** for the operations team.
- Developed and maintained **Java Spring Boot** microservices, implementing **REST APIs** for inter-service communication and data exchange.
- Participated in full software development lifecycle practices including **version control with Git**, conducting thorough **code reviews**, and contributing to **CI/CD pipeline** enhancements.
- Engineered solutions for large-scale, **multi-tenant Infrastructure as a Managed Service** environments, focusing on resource allocation and system stability.
- Implemented and coordinated **telemetry** using **Splunk** for log aggregation and analysis, and contributed to the setup of **Grafana** dashboards for system monitoring.
- Containerized applications using **Docker** and deployed them to **Kubernetes** clusters, managing configurations and ensuring efficient resource utilization.

SKILLS

Cloud Operations – AWS, EC2, S3, Lambda, CloudWatch, Kubernetes, Docker

Programming Languages – Java, Go, Python, SQL

Backend Development – Spring Boot, REST APIs, Microservices, Hibernate, JPA

DevOps & CI/CD – Jenkins, Git, Code Review, Automated Testing, Helm

Observability – Splunk, Grafana, Prometheus

Virtualization – Linux System Virtualization, Libvirt, QEMU, KVM

PROJECTS

Scalable Compute Platform for Service Infrastructure

- Designed and implemented a **virtualization platform** using **KVM** and **Libvirt** to host **containerized applications**, supporting large-scale service deployments.
- Developed automation scripts in **Python** for provisioning and managing **AWS EC2 instances** and configuring **Kubernetes clusters**, improving deployment speed by **20%**.
- Integrated **Splunk** for centralized logging and established **Grafana** monitoring for key performance indicators across the compute infrastructure.

Internal Developer Tooling for Service Deployment

- Built a **CI/CD pipeline** using **Jenkins** and **Git** to automate the build, test, and deployment of **Java Spring Boot** services.
- Created a **REST API** using **FastAPI** for developers to query system status and manage deployment configurations, reducing manual intervention by **30%**.
- Authored comprehensive technical documentation and runbooks for the new tooling, enabling faster **onboarding** for new engineering team members.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
