HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and shipped **Swift** features for Radar's macOS and iOS applications, focusing on delivering end-to-end functionality for bug tracking and work organization.
- Contributed to code reviews and technical design discussions for new features within the Radar client team, ensuring adherence to Apple's development practices.
- Wrote and maintained **XCTest** unit and UI tests for Radar client applications, improving code quality and reliability across the macOS and iOS platforms.
- Assisted in triaging and prioritizing issues reported against the Radar client applications, proposing resolutions and collaborating with senior engineers.
- Integrated **SwiftUI** and **AppKit** components to build user interfaces for the Radar macOS and iOS applications, adhering to platform-specific design guidelines.
- Participated in **Agile/Scrum** ceremonies, including sprint planning and estimation, to contribute to the team's iterative development process.
- Managed code versions using **Git**, participating in branching strategies and code merging within a large, evolving codebase environment.

SKILLS

Languages – Swift, SQL, Python, Java

Apple Platforms – SwiftUI, AppKit, UIKit, Xcode, XCTest

Development Tools – Git, Jenkins, Jira, Confluence

Backend/APIs – REST APIs, Spring Boot, FastAPI

Cloud/Infrastructure – AWS, Docker, Linux

Data Analysis – Power BI, Tableau, pandas, NumPy, scikit-learn, R

PROJECTS

Radar macOS Application Feature Development

- Implemented new features for the Radar macOS application using **Swift** and **AppKit**, focusing on enhancing the bug tracking and test case management capabilities.
- Developed **unit tests** with **XCTest** to ensure the stability and correctness of new UI components and data handling logic within the application.
- Collaborated with product managers to gather requirements and translate them into technical specifications for iterative development cycles.

iOS Radar Client Performance Optimization

- Optimized the performance of the Radar iOS application by refactoring **SwiftUI** views and improving data fetching strategies, reducing load times by approximately **18%**.
- Integrated client-side logic to consume **REST APIs** for real-time data updates, ensuring a responsive user experience for tracking issues and project progress.
- Participated in regular code reviews with a small team of engineers to maintain code quality and share best practices for iOS development.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
