PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Performed manual data input and managed updates via integrated applications for core enterprise systems, ensuring data integrity across business functions.
- Conducted regular data validation and integrity checks, identifying and resolving complex data issues through root cause analysis for master data domains.
- Supported master data management activities by performing ad hoc and mass data updates, maintaining accuracy within Oracle and associated field systems.
- Collaborated with business stakeholders to identify and implement opportunities for process improvement and data quality enhancements, leading to more efficient data handling.
- Managed and resolved data-related requests through a ticketing system, delivering a high standard of customer service and timely solution delivery.
- Assisted in the creation and maintenance of process documentation and user guidance materials, providing clear instructions on master data processes and best practices.
- Supported audit and compliance requirements by maintaining accurate records and adhering to established process controls for master data governance.

SKILLS

Core Systems – Oracle EBS Financials, Global Field Financials (GFF), ECPL (Dovetail Technologies), RGC Technologies (RGC)

Data Management – Master Data Management, Data Governance, Data Quality, Data Integrity, Data Validation, Data Migration

Processes & Methodologies – Change Management, Agile Methodologies, UAT, Root Cause Analysis, Process Improvement, Customer Service

Tools & Technologies – Oracle, ServiceNow, SQL, JIRA, Confluence, Microsoft Excel

Data Domains – Supplier Data, Customer Data, Financial Data, Organisational Data

PROJECTS

Master Data Harmonisation Initiative (HCL Technologies)

- Developed and implemented a harmonised data structure for supplier and customer master data across disparate enterprise applications.
- Created Python scripts to automate data cleansing and validation processes, reducing manual error rates by **30%**.
- Collaborated with business analysts to define data quality rules and reporting metrics, ensuring alignment with enterprise standards.

ERP Data Integrity and Reporting Enhancement (HCL Technologies)

- Supported the maintenance and integrity checks of financial master data within an Oracle ERP environment, impacting over **5,000** organisational records.
- Designed and generated SQL queries for data validation and reconciliation reports, identifying inconsistencies for resolution.
- Assisted in user acceptance testing (UAT) for system enhancements, validating data accuracy and process adherence.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
