HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Python** data pipelines for ETL processes, ingesting and transforming data from various sources into a centralized data warehouse.
- Designed and implemented **SQL** schema changes and optimized complex queries across **PostgreSQL** and **Oracle** databases to support analytical reporting needs.
- Engineered **Java Spring Boot** REST APIs for system integrations, ensuring robust data exchange between microservices and enterprise applications.
- Built and deployed containerized applications using **Docker** on **AWS EC2** instances, managing infrastructure through **Jenkins** CI/CD pipelines for automated deployments.
- Collaborated with financial operations teams to gather requirements for enhancements on a **payments operations dashboard**, focusing on transaction monitoring and reconciliation workflows.
- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, performing root cause analysis and implementing fixes within strict SLA parameters.
- Contributed to Agile ceremonies, including sprint planning and code reviews, to ensure timely delivery of features and maintain code quality.

SKILLS

Data Engineering – Python, SQL, PostgreSQL, Oracle, MySQL, ETL, Data Warehousing, Data Modelling

Backend Development – Java, Spring Boot, REST APIs, Microservices, Docker, Jenkins

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Observability & Monitoring – Splunk, Dynatrace

Financial Domain – Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R

Databases & OS – PostgreSQL, Oracle, MySQL, Linux

PROJECTS

Enterprise Data Pipeline Automation (HCL Technologies)

- Developed a series of **Python** scripts to automate data extraction, transformation, and loading (ETL) from disparate client systems into a unified data lake on **AWS S3**.
- Implemented data validation checks and quality monitoring within the pipelines, reducing data integrity issues by approximately **18%** for downstream reporting.
- Containerized the Python data processing jobs using **Docker** and orchestrated their execution via **Jenkins**, enabling repeatable and scheduled data refresh cycles.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Created a **Java Spring Boot** backend service to process and aggregate transaction data for a financial operations dashboard, focusing on monitoring failed payments.
- Designed and implemented **SQL** queries against a **PostgreSQL** database to retrieve and filter transaction flow details for operational alerts and reconciliation.
- Collaborated with business analysts to refine alert logic, improving the team's ability to identify and triage stuck payment messages by approximately **30%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
