HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented end-to-end solutions for **Dynamics 365 Customer Service** and **Field Service** modules, translating business requirements into functional system configurations.
- Developed and deployed custom applications and automated workflows using **Power Apps** and **Power Automate** to streamline sales, pricing, and customer operations.
- Integrated disparate business systems through robust **API development** and data migration strategies, ensuring seamless data flow across platforms.
- Architected and delivered solutions for a greenfield digital transformation initiative, focusing on process automation and system integration within the renewable energy sector.
- Managed the full lifecycle of Dynamics 365 and Power Platform solutions, from initial design and development through to testing, deployment, and post-implementation support.
- Collaborated with business stakeholders to identify pain points and translate complex challenges into practical, technical solutions that support business growth.
- Containerized and deployed key integration services using **Docker** on **AWS EC2** instances, ensuring scalable and reliable operation for critical business processes.

SKILLS

Dynamics 365 – Customer Service, Field Service, Power Platform, Power Apps, Power Automate

Integration – APIs, System Integration, Data Migration

Development – Solution Design, Process Automation, Technical Solutions

Cloud & DevOps – AWS, EC2, Docker

Methodologies – Agile, Greenfield Project Delivery

PROJECTS

Dynamics 365 Customer Service Automation

- Developed custom workflows and business process flows within **Dynamics 365 Customer Service** to automate case management and customer interaction logging, reducing manual data entry by an estimated **30%**.
- Built a **Power App** interface for field technicians to manage service requests and log site visit details, integrating with the core Dynamics 365 backend via OData APIs.
- Designed and implemented a data migration strategy from legacy systems to Dynamics 365, ensuring data integrity and minimal disruption to ongoing operations.

Power Platform Integration for Sales Operations

- Engineered a **Power Automate** solution to synchronize sales lead data between an external CRM and Dynamics 365, handling approximately **1,500 records** daily.
- Developed RESTful APIs using **Java Spring Boot** to expose pricing and billing data from an ERP system for consumption by Dynamics 365, facilitating real-time access for sales teams.
- Created interactive dashboards in **Power BI** to visualize sales pipeline metrics and automation effectiveness, providing actionable insights to management.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
