HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained integrations for **Microsoft Dynamics 365** using **REST APIs** and web services, ensuring seamless data flow between customer service and sales modules.
- Designed and implemented solutions within the **Power Platform**, specifically configuring **Power Automate** flows to automate business processes and streamline data synchronization.
- Collaborated with business analysts and operations teams to gather requirements for new system integrations, translating business needs into technical specifications for **Dynamics 365** implementations.
- Managed the end-to-end delivery of integration projects, from initial design and technical specification to final deployment and post-implementation support.
- Configured and extended **Microsoft Dynamics 365** functionalities, focusing on enhancing customer service workflows and field service operations through custom integrations.
- Built reusable integration components and services that connected disparate business systems, improving overall data consistency and operational efficiency for enterprise clients.
- Containerised integration services using **Docker** and deployed them to cloud environments, ensuring scalable and reliable operation on **AWS EC2** instances.

SKILLS

Microsoft Dynamics 365 – Customer Service, Field Service, Power Platform, Power Automate, Power Apps

Integration Technologies – APIs, REST, Web Services, System-to-System Integration

Cloud & DevOps – AWS EC2, Docker, Jenkins, Git

Programming Languages – Java, Python, SQL

Databases – PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum

PROJECTS

Dynamics 365 Integration for Renewable Energy Sector

- Designed and built a series of integrations connecting **Microsoft Dynamics 365** modules (Sales, Customer Service) with an internal ERP system using **REST APIs**.
- Developed **Power Automate** workflows to automate lead qualification and customer onboarding processes, reducing manual data entry by approximately 40%.
- Implemented data validation and error handling mechanisms for all system-to-system data transfers, ensuring data integrity across interconnected platforms.

Automated Business Process Orchestration

- Engineered Python scripts to facilitate data extraction and transformation for batch integration processes between legacy systems and a new CRM platform.
- Configured **Power Apps** to provide a user-friendly interface for triggering and monitoring automated workflows, enhancing operational visibility.
- Managed the deployment of integration solutions within a CI/CD pipeline using **Jenkins**, enabling more frequent and reliable updates.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
