PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and built scalable, production-ready software solutions using **C#** and **.NET**, focusing on **APIs** and distributed systems as part of a major AI transformation programme.
- Developed and integrated **AI agents** into enterprise software solutions, working with **MCP** and turning prototypes into production-ready systems.
- Built and integrated **RAG pipelines** and AI-powered data retrieval mechanisms, enabling efficient information access for complex enterprise AI applications.
- Engineered **Java Spring Boot** REST APIs for cross-service data exchange, implementing request validation and circuit-breaker patterns to ensure reliable communication.
- Managed production support and monitoring for enterprise Java applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring SLA adherence.
- Developed **Python scripts** for data pipeline automation and scheduled reporting, improving data processing efficiency for operational teams.
- Containerised Java applications using **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits for predictable rollout.

SKILLS

Languages – C#, .NET, Java, Python, SQL, JavaScript

AI/ML Concepts – Agentic AI, RAG, MCP, AI Agents, Machine Learning

Backend Development – .NET Core, ASP.NET Core, Spring Boot, REST APIs, Microservices, API Development, Distributed Systems

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD, Kubernetes

Databases – PostgreSQL, MySQL, Oracle, SQL Server

Observability & Support – Splunk, Dynatrace, P1/P2 Incident Response, SLA Management

Data Analytics & Scripting – Python, pandas, NumPy, R, Power BI, Tableau, DAX

PROJECTS

AI Agent Integration Platform

- Developed a **Java Spring Boot** backend service to manage and orchestrate multiple **AI agents**, handling input processing and output aggregation.
- Integrated **RAG pipelines** to provide agents with contextual information from an enterprise knowledge base, improving response accuracy by an estimated **20%**.
- Containerised the platform using **Docker** and deployed to an **AWS** environment, ensuring scalability and production readiness.

Enterprise Data Processing Automation

- Automated data extraction and transformation tasks using **Python** and **pandas** for various operational reports, reducing manual effort by approximately **15 hours** per week.
- Developed **SQL scripts** to validate and cleanse data before ingestion into downstream systems, catching over **95%** of data anomalies.
- Built and maintained **CI/CD pipelines** with Jenkins for automated testing and deployment of Python data scripts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
