PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided technical support to internal users across multiple business applications, resolving an average of **15-20 tickets daily** via Jira Service Desk.
- Supported and maintained **cloud platforms** and SaaS applications, ensuring operational continuity and user access through proactive monitoring.
- Developed and executed **Python scripts** to automate routine IT tasks, including data extraction for reporting and system configuration checks, reducing manual effort by an estimated **20%**.
- Assisted in application testing and deployment processes for new features and mobile app rollouts, contributing to a smoother user adoption phase.
- Monitored critical **infrastructure** and service endpoints using cloud-native tools and logging platforms, identifying and escalating potential issues before they impacted end-users.
- Contributed to the development and maintenance of technical documentation and support guides, improving knowledge sharing for the IT team.
- Participated in information security initiatives, adhering to best practices for data protection and system access controls.

SKILLS

Scripting & Automation – Bash, PowerShell, Python

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), SaaS platforms

Operating Systems – Linux, Windows

Databases – SQL, PostgreSQL, MySQL, Oracle

Development Tools – Git, Jenkins, Docker

Support & Ticketing – Jira Service Desk, Confluence, Splunk, Dynatrace

PROJECTS

IT Operations Automation Suite (HCL Technologies)

- Developed a suite of **Python scripts** to automate common IT support tasks, including user account audits and log file analysis, reducing manual intervention time by approximately **18%**.
- Integrated scripts with **Jira** for automated ticket creation based on system monitoring alerts, streamlining incident response workflows for the operations team.
- Containerized key automation scripts using **Docker** for consistent deployment across development and production environments.

Cloud Infrastructure Monitoring Dashboard (MSc Project)

- Designed and implemented an interactive **Power BI** dashboard to visualize key metrics from cloud infrastructure (AWS EC2, S3, Lambda) and application logs.
- Wrote **SQL queries** to aggregate data from various sources and developed **DAX measures** for performance analysis and anomaly detection.
- Utilized **Power Query** to clean and transform data, preparing it for effective data modeling and reporting to business stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
