# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Developed and maintained hybrid infrastructure supporting **Linux** and **Windows** environments for engineering workflows at HCL Technologies.
- Implemented automation scripts using **Python** to streamline data ingestion and reporting processes for enterprise systems.
- Managed production incidents and SLA adherence for enterprise Java/.NET applications, analyzing logs with **Splunk** and **Dynatrace** to resolve P1/P2 issues.
- Enhanced **CI/CD pipelines** using **Jenkins** and Git, improving code deployment frequency and reliability for Java Spring Boot services.
- Collaborated with Machine Learning software teams to understand their infrastructure needs and support the adoption of **DevOps practices**.
- Improved **containerised environments** and operational documentation, contributing to clearer deployment and management strategies.
- Investigated infrastructure and tooling issues, communicating findings and contributing to practical solutions for the wider engineering team.

## SKILLS

**Operating Systems** – Linux, Windows, macOS, Android

**Scripting & Automation** – Python, Bash

**DevOps & CI/CD** – Docker, Kubernetes, Jenkins, Git, CI/CD

**Cloud Platforms** – AWS (EC2, S3, Lambda, CloudWatch)

**Infrastructure Management** – Board farm management, Multi-cloud enablement

**Monitoring & Observability** – Splunk, Dynatrace

## PROJECTS

### ML Infrastructure Automation with Kubernetes

- Automated the deployment and management of ML infrastructure components using **Docker** and **Kubernetes** on AWS.
- Developed **Python** scripts to manage cluster configurations and resource provisioning, reducing manual setup time by approximately 40%.
- Integrated monitoring tools like **CloudWatch** to ensure the stability and performance of the ML development environments.

### CI/CD Pipeline Enhancement for ML Workflows

- Engineered and optimized **CI/CD pipelines** using **Jenkins** to support the build, test, and deployment of ML model artifacts.
- Implemented automated testing strategies within the pipeline to ensure code quality and model integrity, catching ~65% of integration errors pre-deployment.
- Containerized ML applications using **Docker**, enabling consistent execution across development and production environments.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
