HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python**-based automation scripts that processed ~5,000 records daily, reducing manual data entry time by **15%**.
- Developed and maintained **Java Spring Boot** REST APIs to support new feature development, handling over **2,000 requests** per hour.
- Managed production incidents for enterprise applications on **AWS**, utilizing **Splunk** and **Dynatrace** for monitoring and root cause analysis, meeting strict SLAs.
- Contributed to the development of machine learning inference services, writing **Python** code to integrate models into production pipelines and serve predictions.
- Built and optimized **SQL** queries across **PostgreSQL** and **MySQL** databases for data validation and reporting, supporting analytical data needs.
- Containerized applications using **Docker** and managed deployments via **Jenkins** pipelines, contributing to a more efficient CI/CD workflow.
- Collaborated with cross-functional teams to gather requirements for system enhancements, participating in Agile ceremonies and providing technical estimations.

SKILLS

Languages – Python, Java, SQL, Bash, C++

Frameworks & Libraries – Spring Boot, scikit-learn, pandas, NumPy, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle

ML Concepts – Neural Networks, Model Training, Inference, Feature Pipelines

Tools – Splunk, Dynatrace, Jira, Confluence

PROJECTS

ML Model Deployment Pipeline (HCL Technologies)

- Engineered a **Python**-based pipeline to deploy machine learning models to a **Linux** environment, integrating with **FastAPI** for inference.
- Developed data validation scripts using **pandas** to ensure input data quality for model predictions, handling ~1,000 requests during peak hours.
- Containerized the inference service using **Docker**, enabling consistent deployment across development and production stages.

Automated Report Generation for Operations (HCL Technologies)

- Created **Python** scripts to automate the generation of daily operational reports from **PostgreSQL** and **MySQL** databases.
- Implemented data aggregation and transformation logic using **pandas**, reducing manual report compilation time by approximately **2 hours** per day.
- Scheduled script execution using **cron jobs** on **Linux** servers, ensuring timely delivery of reports to stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
