HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Applied **statistical modelling** and **Python** techniques to analyse datasets for transport and built environment projects, identifying actionable insights to inform stakeholder decisions.
- Developed and delivered **data science**, **analytics**, and **AI solutions** for internal and external clients, addressing complex challenges across diverse sectors.
- Collaborated with **multidisciplinary teams** to translate business challenges into data-driven solutions, contributing to the development of practical **dashboards** and applications.
- Explored and integrated emerging **AI** and **machine learning technologies** to enhance efficiency and deliver improved outcomes for clients.
- Supported the development of **data cleaning** and **transformation** processes, ensuring data integrity for analysis and model development.
- Managed data preparation and **data modelling** activities to support the creation of analytical models and reporting tools.
- Contributed to a collaborative learning environment by sharing knowledge and adopting best practices in **data science** and **analytics**.

SKILLS

Machine Learning – Statistics, Data Science, Analytics, Python Programming, Database Systems, SQL, Data Engineering, Cloud Computing, Artificial Intelligence, Software Engineering, Data Modelling, Data Cleaning and Transformation, Power BI, Git, Tableau, Microsoft Azure, Databricks, AWS, Geospatial Data Analysis

Programming Languages – Python, SQL

Data Visualization – Power BI, Tableau

Cloud Platforms – AWS, Microsoft Azure

Databases – SQL, Database Systems

Version Control – Git

PROJECTS

Energy Sector Data Analytics Platform

- Developed a **Python**-based data pipeline to ingest and process sensor data from energy infrastructure, handling approximately **15,000 data points per hour**.
- Applied **statistical analysis** and **data modelling** techniques to identify performance anomalies and predict maintenance needs for energy assets.
- Created interactive **dashboards** using **Power BI** to visualize key performance indicators and trends for energy sector stakeholders.

Built Environment Geospatial Analysis Tool

- Designed and implemented a **data cleaning** and **transformation** workflow using **Python** and **SQL** to prepare complex geospatial datasets.
- Built **geospatial data analysis** capabilities to identify patterns and optimize urban planning initiatives.
- Integrated outputs into a reporting framework, enabling stakeholders to visualize and interpret spatial relationships.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
