HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise applications, handling over 1,500 requests per minute during peak hours.
- Implemented **Hibernate** and JPA for data persistence, optimizing database interactions and reducing query times by **18%** for critical financial transactions.
- Authored comprehensive unit and integration tests using **JUnit** and Mockito, increasing code coverage by **30%** for core service modules.
- Collaborated with architects and senior engineers on technical estimations and sprint planning within an **Agile/Scrum** framework.
- Contributed to the design and implementation of **system integrations** using RESTful services, connecting disparate enterprise platforms.
- Containerized microservices using **Docker** and deployed to **AWS EC2** instances, managing container lifecycles and resource allocation.
- Analyzed system logs and performance metrics using **Splunk** and **Dynatrace** to diagnose and resolve P1/P2 incidents, ensuring service level adherence.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI, JUnit, Mockito

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Linux, Shell Scripting

Data Visualization – Power BI, Tableau, DAX, Power Query

Methodologies – Agile, Scrum

PROJECTS

Enterprise Application Modernization (HCL Technologies)

- Re-architected a monolithic legacy application into a microservices-based system using **Java Spring Boot** and **Hibernate**, improving deployment frequency by **50%**.
- Developed RESTful APIs to expose business logic, facilitating integration with downstream systems and enabling seamless data exchange.
- Implemented robust error handling and logging mechanisms across services, enhancing system stability and simplifying root cause analysis for operational teams.

Automated Reporting and Data Pipeline (HCL Technologies)

- Built and maintained **Python** scripts for automated data extraction, transformation, and loading (ETL) from multiple relational databases.
- Developed scheduled reports using **pandas** and delivered insights to business stakeholders, reducing manual reporting effort by approximately **15 hours** per week.
- Managed data validation processes to ensure accuracy and integrity of data fed into downstream analytical dashboards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
