HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed structural models using **industry-standard software** to support bridge and civil infrastructure analysis.
- Prepared technical reports, specifications, and engineering documentation for complex infrastructure projects, ensuring clarity and accuracy.
- Collaborated with multidisciplinary teams, including highways and geotechnical specialists, to integrate civil structures into larger infrastructure designs.
- Contributed to the design of sustainable and resilient infrastructure solutions, applying engineering principles to enhance project outcomes.
- Participated in site visits and construction support activities, bridging the gap between design and execution for civil engineering projects.
- Assisted in the production and coordination of **drawings and BIM deliverables**, adhering to project standards and requirements.
- Applied engineering principles to solve structural challenges, ensuring the delivery of efficient and effective infrastructure solutions.

SKILLS

Engineering Software – AutoCAD, Revit, Civil 3D, Tekla Structures, SOFiSTiK, MIDAS, LUSAS, Robot Structural Analysis

Structural Analysis & Design – Steel, Reinforced Concrete, Prestressed Concrete, Composite Structures

Digital Engineering & BIM – BIM Deliverables, Digital Technologies

Sustainability & Construction – Sustainable Design Principles, Modern Construction Methods

Core Engineering – Structural Analysis, Civil Engineering Infrastructure, Retaining Structures

General Skills – Analytical Skills, Problem-Solving, Technical Reporting, Collaboration

PROJECTS

Analysis and Design of a Highway Overpass

- Developed detailed structural models in **Robot Structural Analysis** to assess load-bearing capacities and stress points for a multi-span highway overpass.
- Prepared comprehensive engineering calculations and technical reports, detailing design specifications for concrete and steel components, and ensuring compliance with relevant standards.
- Coordinated with the geotechnical team to integrate foundation design requirements based on soil analysis, contributing to a holistic infrastructure plan.

Civil Infrastructure Design Documentation

- Generated technical documentation and specifications for a series of retaining walls and drainage systems using **AutoCAD** and **Revit**.
- Assisted senior engineers in the preparation of design summaries and feasibility studies for urban infrastructure development, focusing on constructability and material selection.
- Participated in design review meetings, providing input on the practicality and efficiency of proposed structural elements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
