HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported planning and design for **water and environmental projects**, focusing on **sustainable water management** and **climate resilience** strategies.
- Contributed to **flood risk assessments** and **drainage strategy development**, analysing technical and environmental data to inform project recommendations.
- Assisted in the design of **water infrastructure**, including stormwater, wastewater, and potable water systems for enterprise clients.
- Prepared detailed **technical reports**, **calculations**, and project documentation, ensuring clarity and accuracy for multidisciplinary teams.
- Analyzed **operational data** from enterprise systems to support project recommendations and identify areas for improvement.
- Collaborated with **civil engineers**, **environmental consultants**, and **sustainability specialists** on diverse water resource challenges.
- Managed production support for enterprise **Java** applications using **Splunk** and **Dynatrace**, ensuring SLA adherence and responding to P1/P2 incidents.

SKILLS

Water Engineering – Sustainable water management, Climate resilience, Flood risk assessment, Drainage strategies, Water infrastructure design, Stormwater systems, Wastewater systems, Potable water systems

Digital Tools – Hydraulic modelling, GIS technologies, InfoDrainage, Civil 3D, ArcGIS, MicroDrainage, HEC-RAS, InfoWorks

Data Analysis – Technical data analysis, Environmental data analysis, Operational data analysis, Data-driven decision making

Software Engineering – Java, Spring Boot, Python, SQL, REST APIs, AWS, Docker, Linux, Jenkins, Git

Business Systems – ERP integration support, Change management, Reconciliation workflows, Transaction monitoring

PROJECTS

Water Resource Management & Simulation Platform

- Developed Python scripts to process and analyze large datasets related to water resource availability and consumption patterns for regional utilities.
- Built interactive dashboards using **Power BI** to visualize key water metrics, including rainfall, reservoir levels, and demand forecasts, aiding **stakeholder decision-making**.
- Collaborated with MSc peers to perform statistical analysis on historical water usage data, identifying trends and potential conservation opportunities.

Enterprise Application Support & Automation (HCL Technologies)

- Provided **production support** for critical enterprise applications, troubleshooting and resolving P1/P2 incidents within strict SLAs using **Splunk** and **Dynatrace**.
- Automated routine reporting tasks using **Python** scripting, reducing manual effort by approximately 15 hours per week for the operations team.
- Executed **SQL** queries across **PostgreSQL** and **Oracle** databases for data validation and ad-hoc reporting, supporting system integrity checks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
