HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Monitored **Splunk** and **Dynatrace** dashboards for critical enterprise applications, performing first-level analysis and triage on over **150** alerts per shift to maintain service availability.
- Authored **Python** scripts to automate data extraction and transformation tasks for daily operational reports, reducing manual processing time by approximately **4 hours** per week.
- Managed incident tickets within **Jira**, documenting root causes and resolution steps for P1/P2 incidents, ensuring adherence to SLA targets for the supported financial-services client.
- Developed and maintained **Java Spring Boot** REST APIs for internal microservices, implementing CRUD operations and integrating with PostgreSQL databases for core business logic.
- Contributed to CI/CD pipelines using **Jenkins** and **Git** for automated builds and deployments, participating in code reviews to ensure code quality and adherence to standards.
- Analyzed and interpreted system alerts from **Oracle Cloud Infrastructure (OCI)** dashboards, assessing impact and urgency for over **20** distinct infrastructure components during monitoring shifts.
- Prepared comprehensive Post-Incident Reviews (PIRs) for critical events, detailing timelines, impact assessments, and corrective actions, contributing to a knowledge base of over **50** documented incidents.

SKILLS

Monitoring & Alerting – Splunk, Dynatrace, CloudWatch, Oracle Cloud Infrastructure (OCI), CCTV monitoring tools, PagerDuty

Incident Management – Jira, ITSM platforms, Incident Response, Triage, Root Cause Analysis, Post-Incident Reviews (PIRs), SLA Management, Change Management, ITIL

Programming Languages – Java, Python, SQL, Shell Scripting

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, WAN/LAN concepts, TCP/IP

Tools & Methodologies – Jenkins, Git, Confluence, Agile, Scrum, Everbridge

PROJECTS

Financial Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** for a financial-services client by developing **Python** scripts to parse and aggregate transaction data, improving real-time monitoring capabilities for over **3,000** daily transaction messages.
- Implemented automated alerting mechanisms within the dashboard using **Splunk** queries to notify operations teams of failed or stalled payment messages, reducing manual detection time by an estimated **30%**.
- Supported UAT phases and post-implementation triage for dashboard updates, collaborating with business analysts and operations teams to refine reporting and alert logic.

Automated IT System Health Monitoring

- Developed a suite of **Python** scripts to monitor the health of enterprise applications and infrastructure components, including disk usage, CPU load, and network connectivity across **50+** servers.
- Integrated monitoring scripts with **Jira** to automatically create tickets for critical alerts, streamlining the incident response workflow and ensuring timely escalation to relevant teams.
- Authored technical documentation and SOPs for the monitoring system, facilitating knowledge transfer and enabling faster onboarding for new support personnel.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
