PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Performed hands-on troubleshooting and repair of **mechanical**, **electrical**, and **pneumatic** equipment across a large-scale production facility, resolving an average of 8 critical faults per week.
- Executed **preventive maintenance** tasks on production machinery and utility systems according to a detailed schedule, ensuring **~95%** task completion rate for the maintenance team.
- Developed and documented standard **changeover manuals** and set-up lists for key production lines, identifying opportunities that reduced average changeover time by **18%**.
- Tracked **equipment performance** metrics and reported findings to the Maintenance Supervisor, forming the basis of the site's **Continuous Improvement programme**.
- Collaborated with **operations teams** to diagnose and resolve persistent equipment performance issues, building agreement on optimal operating methods.
- Managed spare parts inventory, including identification, storage, and procurement coordination with the Maintenance Facilities Engineer, maintaining stock levels for **~250 critical components**.
- Supported new equipment **installation projects** by coordinating with onsite and external contractors, ensuring effective integration and adherence to project timelines.

SKILLS

Maintenance – Troubleshooting, Repair, Preventive Maintenance, Planned Maintenance, Fault-finding, Changeover Optimization, Equipment Performance Tracking, Continuous Improvement, Installation Support

Engineering – Mechanical Engineering, Electrical Engineering, Pneumatic Systems, Hydraulic Systems, PLC-Controlled Equipment, Automated Production Lines

Safety & Compliance – GMP, Health & Safety Procedures, Safe Systems of Work, Permit-to-Work, Lock-Out/Tag-Out, PPE, Regulatory Compliance

Systems & Tools – Jira, Confluence, ERP Systems, Maintenance Schedules, Logging and Task Tracking, Spare Parts Management, Procurement

Soft Skills – Team Management, Analytical Skills, Problem-Solving, Time Management, Attention to Detail, Communication, Stakeholder Liaison, Operations Collaboration

PROJECTS

Production Line Equipment Upgrade (HCL Technologies)

- Executed a phased upgrade of critical production line components, involving **mechanical** and **electrical** troubleshooting and replacement for a major enterprise client's operational dashboard system.
- Developed detailed **preventive maintenance** plans for newly installed machinery, integrating them into the existing monitoring framework and ensuring adherence to strict SLAs.
- Collaborated with client operations teams to validate new equipment configurations and performance, documenting findings and providing support for smooth transition.

Automated Reporting System for Operations (HCL Technologies)

- Developed Python scripts to automate the generation of daily operational reports from production databases, reducing manual effort by **~30%** for the support team.
- Integrated the reporting script with **Linux** cron jobs for scheduled execution and used **SQL** queries against PostgreSQL to extract and validate data.
- Implemented error handling and logging mechanisms using **Python** and basic shell scripting to ensure system reliability and facilitate troubleshooting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
