HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing RESTful APIs for core business functions and ensuring robust error handling.
- Designed and implemented data extraction, transformation, and loading (ETL) pipelines using **Python** and **SQL** to populate enterprise data warehouses.
- Managed production support for enterprise applications across **AWS** (EC2, S3, Lambda) and **Linux** environments, responding to P1/P2 incidents and maintaining service level agreements.
- Collaborated with cross-functional teams to gather requirements for new feature development and system integrations, translating business needs into technical specifications.
- Participated in **Agile** ceremonies including sprint planning, daily stand-ups, and retrospectives, contributing to iterative development cycles and continuous improvement.
- Performed code reviews for peer developers, ensuring adherence to coding standards, best practices, and maintainability of the codebase.
- Containerized applications using **Docker** and managed deployments within Jenkins CI/CD pipelines, facilitating consistent and repeatable build and release processes.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn, Hibernate, JPA

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Splunk, Dynatrace, Jira, Confluence

BI/Analytics – Power BI, Tableau, DAX, Power Query, data modelling

PROJECTS

Enterprise Application Monitoring and Alerting System

- Engineered a centralized monitoring solution using **Splunk** and **Python** scripts to aggregate logs and metrics from diverse enterprise applications, reducing incident detection time by approximately 30%.
- Developed automated alerting mechanisms that triggered notifications for critical system events and performance degradations, enabling proactive issue resolution.
- Configured dashboards in **Dynatrace** to visualize application health and performance trends, providing operational teams with real-time insights.

Data Analytics and Reporting Platform

- Built interactive dashboards in **Power BI** to present key performance indicators and operational metrics to business stakeholders, facilitating data-informed decision-making.
- Developed complex **DAX** measures and performed data modeling within Power BI to support analytical requirements and ensure data integrity.
- Created **Python** scripts to automate data extraction and transformation processes from various sources, preparing data for reporting and analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
