HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs for internal services, handling over **1,500 requests per minute** during peak loads.
- Developed and maintained **Hibernate** entities and queries for a core enterprise data service, ensuring data integrity and efficient retrieval across the platform.
- Authored **JUnit** tests and conducted code reviews for a team of three junior engineers, improving code quality and adherence to design patterns within the Java application suite.
- Collaborated with cross-functional teams to gather requirements for new feature development, translating business needs into technical specifications for the development backlog.
- Participated in **Agile ceremonies**, including sprint planning and daily stand-ups, contributing to technical estimations and task breakdown for iterative development cycles.
- Containerized multiple Java microservices using **Docker**, creating deployable images that were integrated into the existing **Jenkins** CI/CD pipeline for automated testing and deployment.
- Provided production support for enterprise applications, responding to critical incidents and managing service level agreements (SLAs) for system availability using **Splunk** and **Dynatrace**.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JUnit, pandas, NumPy, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Data Visualization – Power BI, Tableau, DAX, Power Query

PROJECTS

Enterprise Java Application Modernization

- Refactored a legacy Java application module into a set of microservices using **Spring Boot** and **JPA**, improving system modularity and maintainability.
- Implemented robust error handling and logging mechanisms across the new microservices, enabling quicker identification and resolution of operational issues.
- Developed comprehensive unit and integration tests using **JUnit**, achieving over **90% code coverage** for critical service components.

Automated Data Processing Pipeline

- Designed and built a **Python**-based ETL pipeline to ingest, transform, and load data from disparate sources into a central data warehouse for reporting.
- Automated the generation of daily operational reports using **pandas** and scheduled execution via **cron jobs** on Linux servers.
- Performed data validation and quality checks throughout the pipeline, reducing data-related errors in downstream analytics by approximately **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
