PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Expanded existing customer accounts by identifying high-leverage workflows and product areas benefiting from additional seats and advanced tier upgrades, contributing to measurable revenue growth.
- Managed end-to-end virtual sales cycles, focusing on rapid qualification, solution alignment, objection handling, and closing deals through phone and Zoom interactions.
- Developed targeted expansion plans for a designated territory, prioritizing Fusion adoption in areas delivering immediate business lift and measurable usage increases.
- Collaborated closely with Fusion Data Specialists and Technical Sales teams to deliver impactful product demonstrations and provide technical validation for customer solutions.
- Partnered with the customer acquisition 'land' team to ensure a consistent customer strategy and seamless handoffs, optimizing the overall customer journey.
- Multi-threaded engagement within key accounts to uncover latent opportunities and build momentum for expansion sales, driving increased subscription revenue.
- Maintained disciplined pipeline management and accurate forecasting using **Salesforce** and contemporary sales tools, ensuring predictable revenue generation.

SKILLS

Sales Tools – Salesforce, Zoom

Sales Methodologies – Inside Sales, Expansion Sales, Account Management, Pipeline Management, Forecasting

PROJECTS

Customer Account Expansion Strategy (HCL Technologies)

- Designed and executed an expansion strategy for a portfolio of 15 enterprise accounts, focusing on identifying opportunities for additional software seats and advanced feature adoption.
- Conducted virtual discovery sessions with customer stakeholders, including IT and business unit leads, to align product capabilities with their strategic objectives and uncover new use cases.
- Developed tailored expansion playbooks that prioritized workflows demonstrating immediate ROI, leading to a **18% increase** in add-on subscription revenue within the targeted accounts over six months.

Technical Solution Alignment for Manufacturing Clients (HCL Technologies)

- Partnered with technical sales engineers to prepare and deliver tailored product demonstrations for clients in the manufacturing sector, showcasing the value of advanced data capabilities.
- Assisted in the technical validation phase for potential expansion opportunities, translating customer requirements into actionable solution proposals and addressing technical concerns.
- Documented common integration patterns and best practices for adopting advanced Fusion features, enabling smoother technical handoffs to implementation teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
