PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **enterprise-level infrastructure solutions** for hybrid cloud environments, encompassing HPE GreenLake and Azure platforms, aligning technical designs with project requirements.
- Led technical assessment and delivery of **specific technical solutions**, ensuring successful verification and implementation across diverse technologies.
- Provided comprehensive technical design evaluation for **multi-vendor, multi-layered infrastructure solutions** spanning multiple enterprise sites.
- Developed and maintained **high-level and low-level designs (HLD/LLD)** for infrastructure projects, ensuring adherence to architectural standards.
- Engaged in adept **technical problem-solving** across diverse technologies, developing novel approaches for unique deployment challenges.
- Contributed to **infrastructure and digital transformation projects**, offering technical expertise for end-user compute, network, and security components.
- Containerized **Java Spring Boot applications** using Docker for deployment onto AWS EC2 instances, improving deployment consistency and reducing setup time by approximately 30%.

SKILLS

Cloud – Hybrid Cloud, Azure, AWS (EC2, S3, Lambda, CloudWatch)

Virtualisation & End User Compute – VMware, Hyper-V, Citrix, Intune

Infrastructure & Networking – Storage, Backup solutions, Networking, Security

Design & Implementation – HLD, LLD, Solution Design, Infrastructure Migrations, On-prem, Tenant

Methodologies & Tools – Agile, Scrum, Jenkins, Git, Jira, Confluence, Docker, Linux

Programming & Scripting – Java, Spring Boot, Python, SQL (PostgreSQL, MySQL, Oracle)

PROJECTS

Hybrid Cloud Infrastructure Design

- Architected a hybrid cloud solution integrating **HPE GreenLake and Azure services** to meet enterprise client's scalability and disaster recovery needs.
- Developed detailed **low-level designs (LLD)** for virtualised environments, including VMware and Hyper-V configurations, ensuring optimal performance and resource allocation.
- Authored **technical documentation and runbooks** for the implemented infrastructure, facilitating operational handover and support for a team of 5 engineers.

Enterprise Application Deployment Automation

- Engineered automated deployment pipelines for **Java Spring Boot applications** using Jenkins and Docker, reducing manual deployment effort by 60%.
- Integrated **PostgreSQL database changes** into the CI/CD process, ensuring schema consistency across development, staging, and production environments.
- Developed **Python scripts** to automate infrastructure provisioning tasks on AWS EC2, supporting the deployment of microservices.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
