PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed existing motor insurance programmes across multiple jurisdictions, overseeing daily operations and performance metrics.
- Served as the primary point of contact for handling day-to-day queries from business partners and Fronter partners, ensuring timely resolution.
- Collaborated with Underwriting Management to ensure pricing strategies were appropriate and met local entity requirements, including analysis of discount requests.
- Reviewed and validated analysis prepared by Data Analysts on customer and country performance, making recommendations for approval on discount requests within underwriter authority limits.
- Defined, developed, and updated policy wordings for new and existing motor insurance programmes, ensuring alignment with business objectives and regulatory guidelines.
- Coordinated the implementation and annual review of Risk Selection & Pricing Procedures for entities acting as policyholders or intermediaries.
- Monitored and administered Underwriting Key Performance and Key Risk Indicators, identifying trends and potential areas for improvement.

SKILLS

Underwriting – Motor Underwriting, Pricing, Risk Selection, Policy Wordings, Reinsurance Referrals, Business Control Reviews, Insurance Programmes

Analytics & Reporting – Data Analysis, Performance Monitoring, Key Performance Indicators (KPIs), Key Risk Indicators (KRIs), Excel, MS Office

Stakeholder Management – Ayvens Affiliates, Fronter Partners, Business Partners, Cross-functional Collaboration, Communication, Interpersonal Skills

Insurance Domain – Motor Insurance, Fleet Business, Underwriting Procedures, Regulatory Guidelines, Solvency II, Insurance Distribution Directive

Data & Tools – SQL, Python, Power BI, Tableau, R, pandas, NumPy, scikit-learn, PostgreSQL, MySQL, Oracle, AWS, Linux, Jenkins, Splunk, Dynatrace

PROJECTS

Motor Insurance Portfolio Analysis and Optimisation

- Developed Python scripts to analyse motor insurance portfolio performance across several jurisdictions, identifying key drivers of profitability and risk.
- Created a series of interactive Power BI dashboards to visualise underwriting KPIs and KRIs, enabling proactive identification of underperforming segments.
- Performed ad-hoc SQL queries against relational databases to validate data accuracy and extract detailed transaction information for risk assessment.

Automated Discount Request Validation System

- Designed and implemented a Java Spring Boot service to automate the validation of discount requests against pre-defined underwriter authority limits.
- Developed REST APIs for integration with existing ticketing systems, streamlining the request processing workflow and reducing manual effort by an estimated 30%.
- Wrote unit tests using JUnit to ensure the reliability and accuracy of the discount validation logic, covering various edge cases and compliance scenarios.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
