HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for internal enterprise systems, handling approximately **1,500 requests per minute**.
- Engineered **Python scripts** to automate data extraction and transformation processes from diverse sources, reducing manual processing time by **40%**.
- Managed production support for enterprise applications, including incident response for P1/P2 issues and SLA adherence across a team of **5 engineers**.
- Contributed to the design and implementation of **building services systems**, focusing on mechanical and electrical components within project lifecycles.
- Collaborated with **project teams**, design consultants, and specialist subcontractors to ensure M&E; systems were delivered to high-quality standards.
- Participated in **design coordination** and technical reviews, identifying potential issues and ensuring compliance with project specifications.
- Containerised applications using **Docker** and managed deployments on **AWS EC2** instances, improving deployment consistency across environments.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Methodologies – Agile, Scrum

Domain – Building Services, Mechanical Systems, Electrical Systems, Construction Project Management

PROJECTS

Enterprise System Integration with Java

- Developed a **Java Spring Boot** microservice to integrate disparate enterprise business systems, facilitating data exchange via REST APIs.
- Implemented robust error handling and logging mechanisms using **Spring Boot Actuator** and **Logback**, ensuring system stability.
- Wrote comprehensive unit tests using **JUnit** and Mockito, achieving over **85% code coverage** for critical service endpoints.

Automated Reporting Pipeline with Python

- Created an automated **Python** pipeline to extract, transform, and load data from multiple databases into a reporting data mart.
- Used **pandas** for data manipulation and **SQLAlchemy** for database interaction, processing approximately **50,000 records** daily.
- Scheduled and monitored the pipeline execution using **cron jobs** on Linux, ensuring timely delivery of daily operational reports.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
