# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Developed and maintained **Python** data capture and routing pipelines for real-time lead tracking, processing approximately **1,500 leads** daily.
- Designed and built **RESTful API integrations** for connecting web forms to the company's **CRM platform**, automating data flow and reducing manual entry by **40%**.
- Implemented data security measures and **GDPR-compliant processing** for all captured customer data, establishing new data retention policies.
- Engineered **TypeScript**-based backend services using **Node.js** and **NestJS** to support new web application features, improving system responsiveness.
- Managed **PostgreSQL** database administration, including schema design, query optimization, and performance tuning for critical application tables.
- Created interactive **Power BI dashboards** to monitor web traffic, lead funnel metrics, and system performance for business stakeholders, enabling faster decision-making.
- Containerized web applications using **Docker** for consistent deployment across development and production environments, reducing deployment failures by **30%**.

## SKILLS

**Backend Development** – Python, Node.js, NestJS, Java, Spring Boot, RESTful APIs, Webhooks

**Frontend Development** – HTML5, CSS3, JavaScript, TypeScript

**Databases** – PostgreSQL, MySQL, Oracle, MongoDB

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

**Data & Analytics** – Power BI, DAX, Power Query, pandas, NumPy, scikit-learn

**Operations & Support** – Splunk, Dynatrace, Linux, Shell Scripting, Jira, Confluence

## PROJECTS

**Lead Management and CRM Integration System (HCL Technologies)**

- Developed a **Python**-based system to capture and process leads from multiple web sources, integrating with the client's **CRM platform** via **RESTful APIs**.
- Implemented automated data validation and routing logic, ensuring lead data quality and timely dispatch to sales teams, handling over **1,200 leads** per day.
- Designed and deployed the application on **AWS EC2** instances, configuring basic security groups and monitoring with **CloudWatch**.

**Internal Web Application Performance Dashboard (MSc Project)**

- Built a **Power BI** dashboard to visualize key performance indicators for internal web applications, including traffic, user engagement, and error rates.
- Utilized **Power Query** for ETL processes, transforming raw log data into a structured format suitable for analysis and dashboard creation.
- Created custom **DAX measures** to calculate metrics such as lead conversion rates and average session duration, providing actionable insights to development teams.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
