PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed custom chatbots and conversational flows using **Microsoft Copilot Studio**, integrating with **Power Automate** for backend logic and data manipulation.
- Built complex workflows and actions within **Power Automate** to automate business processes, connecting **Microsoft 365 services** like SharePoint and Teams with external APIs.
- Collaborated with enterprise clients to gather detailed business requirements for intelligent automation solutions, translating them into actionable technical designs for **Copilot Studio** and the **Power Platform**.
- Developed and implemented solutions utilizing **Microsoft Graph** to access and manipulate data across **Microsoft 365** services, enhancing custom application capabilities.
- Supported the testing, optimisation, and controlled rollout of **Copilot Studio** solutions across client enterprise environments, ensuring scalability and security.
- Created comprehensive technical documentation, including solution designs and user guides, and contributed to client-facing demos and workshops for **Power Platform** solutions.
- Containerized and deployed backend services for integrations using **Docker** on **AWS EC2** instances, managing deployment pipelines via **Jenkins**.

SKILLS

Low-Code/No-Code Platforms – Microsoft Copilot Studio, Power Platform, Power Automate, Power Apps, Dataverse

Microsoft 365 Ecosystem – SharePoint, Teams, OneDrive, Exchange Online, Microsoft Graph

Integration & APIs – REST APIs, Azure Functions, Logic Apps, Custom Connectors

Programming Languages – Python, TypeScript, JavaScript, Power Fx

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins

Data & Analytics – SQL, Data Modelling, Power BI, Power Query

PROJECTS

Client Automation Solution with Copilot Studio

- Designed and implemented a custom **Copilot Studio** chatbot for an enterprise client to streamline internal HR onboarding processes, integrating with **Power Automate** to manage data entry into **Dataverse**.
- Developed a series of custom actions and API integrations using **Python** and **Azure Functions** to enrich chatbot responses with real-time data from legacy systems, improving user experience by an estimated **30%**.
- Created detailed technical documentation and delivered training sessions to the client's internal support team, enabling them to manage and extend the solution post-launch.

MSc Data Analytics Capstone: Customer Interaction Analytics Dashboard

- Developed an interactive **Power BI** dashboard to analyze customer interaction data from multiple sources, providing insights into service bottlenecks and response times.
- Applied **Power Query** for ETL processes to clean and transform unstructured customer feedback data, consolidating it with structured support ticket information.
- Built custom DAX measures to track key performance indicators, including average resolution time and customer satisfaction scores, presenting findings to academic stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
