PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported and operated production cloud environments on **Azure**, including **monitoring** with **CloudWatch**, **incident resolution**, and performance tuning across compute, networking, and storage services.
- Implemented automation for provisioning and configuration tasks using **HashiCorp Terraform** and **Bash scripting**, reducing manual deployment effort by approximately **40%**.
- Contributed to cloud governance and security initiatives by implementing role-based access control (RBAC) policies and ensuring compliance with organisational standards across the **Azure platform**.
- Designed, deployed, and managed **Azure cloud resources** including **Virtual Machines**, **Virtual Networks**, and **Azure Storage**, adhering to best practices for scalability and security.
- Collaborated with development teams to integrate applications into the **Azure cloud environment**, ensuring seamless deployment and operation through **CI/CD pipelines**.
- Maintained detailed documentation and operational runbooks for cloud infrastructure, facilitating knowledge transfer and supporting reliable cloud operations for a team of **8 engineers**.
- Managed lifecycle of cloud services, including patching, upgrades, and capacity planning for **Azure compute** and **storage** resources.

SKILLS

Cloud Platform – Microsoft Azure, EC2, S3, Lambda, CloudWatch, Azure Storage, Azure Virtual Machines, Azure Virtual Networks.

Infrastructure as Code – HashiCorp Terraform, Bash, PowerShell.

CI/CD & DevOps – Jenkins, Git, Docker.

Operating Systems – Linux, Windows.

Monitoring & Incident Management – Splunk, Dynatrace, P1/P2 Incident Response.

Databases – PostgreSQL, MySQL, Oracle.

Programming Languages – Java, Python, Spring Boot, REST APIs.

PROJECTS

Azure Infrastructure Automation with Terraform

- Automated the provisioning of core Azure infrastructure, including **VPCs**, **subnets**, and **security groups**, using **HashiCorp Terraform**.
- Developed reusable Terraform modules for deploying **Azure Virtual Machines** and configuring **networking**, enabling faster environment setup for development and testing teams.
- Integrated Terraform deployments into a **Jenkins CI/CD pipeline**, enforcing code reviews and automated testing for infrastructure changes.

Cloud Operations Dashboard for Enterprise Applications

- Developed a dashboard solution using **Python** and **Flask** to aggregate operational metrics from **AWS CloudWatch** and **Splunk** for enterprise applications.
- Implemented real-time alerting for P1/P2 incidents by parsing log data and surfacing critical events, reducing average alert response time by **22%**.
- Designed and built data pipelines to ingest and transform operational logs, providing insights into application performance and system health for a team of **5 support engineers**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
