HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **AI microservices** for domain-specific model training, focusing on modularity and scalability to support diverse business units.
- Transitioned **AI models and agentic workflows** from notebook-based PoCs to production-grade components, ensuring performance, reliability, and maintainability across multiple deployments.
- Developed and executed rigorous **testing strategies**, including unit and integration tests, for AI services, achieving a **95% pass rate** on critical quality assurance checks.
- Engineered **Python feature pipelines** on AWS Lambda and S3 to support downstream ML scoring, processing approximately **3,500 events/sec** during peak hours and replacing a brittle batch job.
- Collaborated with data scientists and MLOps engineers to design and implement reusable workflows for **feature engineering and model evaluation**, reducing pipeline development time by **20%**.
- Containerized AI microservices using **Docker** and deployed them to a **Kubernetes** cluster (EKS), configuring basic resource limits for predictable rollouts and improving deployment stability.
- Researched and integrated emerging technologies, including **LLMs and prompt engineering techniques**, to enhance AI software development capabilities and large-scale data processing.

SKILLS

AI/ML – LLM, Agentic AI, Model Post Training, SFT, Distillation, Pruning, Reinforcement Learning, ML Lifecycle, Deep Learning, Neural Networks, Transformer Models

Languages & Frameworks – Python, Java, Spring Boot, Spring AI, FastAPI, LangChain, LangGraph, Semantic Kernel, R

APIs & Microservices – RESTful APIs, Microservice Development, API Design, Integration

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Kubernetes, EKS, CI/CD Pipelines, Jenkins, Git

Data & Analytics – SQL, PostgreSQL, MySQL, Oracle, Pandas, NumPy, Scikit-learn, Data Warehousing, ETL, Data Governance, Data Quality, Data Security

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Splunk, Dynatrace, Postman

PROJECTS

AI Model Productionization Pipeline (HCL Technologies)

- Designed and built a **Python-based pipeline** on AWS to deploy machine learning models, integrating with **FastAPI** for serving predictions.
- Implemented **Docker containers** for model serving environments, ensuring consistent deployments across development and production stages.
- Developed RESTful APIs to expose model inference endpoints, enabling seamless integration with downstream enterprise applications.

Customer ML Feature Engineering Service (HCL Technologies)

- Engineered **Python scripts** to automate the extraction and transformation of features from large datasets for machine learning model training, supporting an internal feature store.
- Wrote **SQL queries** against PostgreSQL and Oracle databases to validate and aggregate data for feature pipelines, improving data accuracy by **15%**.
- Collaborated with business analysts to gather requirements for new feature sets, translating them into technical specifications for data processing jobs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
