HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **security controls** for cloud-native applications deployed on AWS, aligning with industry best practices for secure development.
- Supported senior engineers in the **analysis of application architectures** and cloud services, identifying potential security vulnerabilities and recommending mitigation strategies.
- Assisted in the definition of **test cases** for new security solutions, ensuring comprehensive coverage of functional and non-functional security requirements.
- Developed and maintained **Python scripts** to automate repetitive security tasks, including log analysis and compliance checks, reducing manual effort by approximately **40%**.
- Investigated and resolved **security incidents** within production environments, performing root cause analysis and implementing corrective actions to prevent recurrence.
- Collaborated with **business owners** and end-users to gather security requirements for new features, ensuring alignment between technical solutions and business needs.
- Containerized several backend services using **Docker** and managed their deployment on **AWS EC2** instances, improving deployment consistency and simplifying environment setup.

SKILLS

Cloud Security – Cloud Security Principles, Cloud Native Applications, Multi-Cloud Applications, Cloud Infrastructure, Firewalls, Threat Prevention, Threat Detection, Application Security Principles, PKI

Security Concepts – Information Security Principles, Risk Management, Data Privacy, Applied Cryptography, Identity Management, User Authentication, Authorization Principles

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Development Tools – Python, Java, Spring Boot, Docker, Git, Jenkins, Jira

Databases – PostgreSQL, MySQL, Oracle

Scripting & Automation – Python Scripting

Methodologies – Agile, Scrum

PROJECTS

Cloud Security Controls Implementation (HCL Technologies)

- Developed and documented **security hardening guidelines** for AWS environments, focusing on IAM best practices and network security configurations.
- Authored **Python scripts** to automate the auditing of security group rules and S3 bucket permissions, identifying misconfigurations across **50+ AWS resources**.
- Contributed to the evaluation of new security technologies for cloud deployments, including firewall solutions and intrusion detection systems.

Secure Application Architecture Review (HCL Technologies)

- Performed **security analysis** on Java Spring Boot application architectures, identifying common vulnerabilities such as insecure direct object references and cross-site scripting.
- Collaborated with development teams to implement **security patches** and code refactoring based on identified risks, improving the overall security posture of internal services.
- Researched and presented findings on the secure integration of third-party APIs, emphasizing principles of least privilege and secure credential management.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
