HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained Java Spring Boot REST APIs for enterprise systems, processing an average of **1,500 requests per minute**.
- Designed and implemented data persistence layers using **Hibernate** and JPA, ensuring efficient data retrieval and storage for core application modules.
- Wrote **JUnit** and Mockito tests to achieve over **85% code coverage** for new Java features, reducing post-deployment defects by approximately **18%**.
- Collaborated with cross-functional teams to refine technical requirements, contributing to sprint planning and providing **accurate effort estimations** for new feature development.
- Mentored junior engineers on **Java best practices** and conducted detailed code reviews to ensure adherence to coding standards and maintain code quality.
- Analyzed and debugged complex production issues across distributed systems, identifying root causes and implementing timely resolutions to minimize system downtime.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, streamlining the deployment process and improving environment consistency.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, RStudio

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Enterprise Java Application Modernization

- Refactored a monolithic Java application into a microservices architecture using **Spring Boot**, improving system modularity and enabling independent deployments for different functional areas.
- Integrated **Hibernate** with PostgreSQL to manage complex business data, enhancing data integrity and optimizing query performance for high-volume transaction processing.
- Implemented robust RESTful APIs with comprehensive error handling and logging, facilitating seamless data exchange between new microservices and existing enterprise systems.

Internal Data Processing Pipeline Automation

- Developed automated Python scripts to extract, transform, and load data from multiple sources into a central data warehouse, reducing manual data processing time by **~40%**.
- Designed and implemented data validation checks using **pandas** and SQL to ensure data quality and consistency before ingestion into downstream reporting systems.
- Scheduled and monitored data pipelines using Jenkins, ensuring reliable and timely data availability for business intelligence and analytical reporting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
