PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed and interpreted complex financial data from **SAP** and **Excel**, identifying key trends and anomalies for management reporting.
- Supported the generation of financial reports and performed rigorous data validation and reconciliation processes to ensure accuracy.
- Collaborated with **finance** and **technical teams** to gather business requirements and translate them into actionable system enhancements.
- Assisted in improving **SAP FI/CO** reporting capabilities and optimizing related financial processes for enhanced efficiency.
- Developed **Power BI** dashboards to visualize financial performance metrics, providing actionable insights to stakeholders.
- Provided hands-on **SAP end-user support** for finance functions, troubleshooting issues and guiding users through system operations.
- Automated repetitive data extraction and reporting tasks using **Python scripting**, reducing manual effort by approximately **40%**.

SKILLS

ERP Systems – SAP FI/CO, SAP Finance

Data Analysis & BI – Power BI, Excel, DAX, Data Modelling, Data Visualisation

Financial Processes – Financial Reporting, Reconciliation, Data Validation, Finance Operations

Programming & Scripting – Python, SQL

Cloud & Infrastructure – AWS, Docker, Linux

Development Tools & Methodologies – Jira, Confluence, Git, Jenkins

PROJECTS

Financial Reporting Automation with SAP and Power BI

- Developed a suite of **Power BI dashboards** to present key financial metrics, consolidating data from **SAP** and internal databases.
- Automated the extraction and transformation of financial data using **Python** and **SQL**, preparing datasets for reporting and analysis.
- Collaborated with finance stakeholders to refine reporting requirements, ensuring dashboards accurately reflected business needs and facilitated data-driven decisions.

SAP Finance Process Optimization

- Streamlined reconciliation workflows within the **SAP finance** module by implementing new validation rules and automating checks via **SQL scripting**.
- Documented and improved end-user processes for key financial operations, contributing to a more standardized and efficient support model.
- Supported User Acceptance Testing (UAT) for system configuration changes, ensuring seamless integration and functionality for the finance department.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
