PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and troubleshot a **Windows and Linux server** environment supporting critical manufacturing systems, ensuring high availability through proactive monitoring and incident response.
- Administered and maintained **LAN/WAN infrastructure** including managed switches and routers across the manufacturing network, ensuring reliable connectivity for shop-floor systems.
- Configured and maintained **Layer 3 networking** and inter-VLAN routing, implementing VLANs and dynamic routing protocols to optimize network performance.
- Performed packet-level analysis using **Wireshark** to diagnose and resolve latency and packet loss issues affecting manufacturing operations.
- Implemented infrastructure changes in compliance with **change management**, cybersecurity, and GxP requirements, including firmware upgrades and network segmentation adjustments.
- Monitored infrastructure health, availability, and performance using **SNMP and syslog**, configuring alerting thresholds and capacity trending in tools like SolarWinds.
- Participated in an **on-call rotation** to provide 24/7 support for a manufacturing environment, resolving critical incidents and performing off-hours maintenance activities.

SKILLS

Operating Systems – Windows Server, Linux, Unix

Networking – LAN/WAN, TCP/IP, VLANs, OSPF, Spanning Tree, Link Aggregation, Firewalls, Routers, Switches, Wireless APs

Network Analysis – Wireshark, NetFlow, sFlow, Packet Analysis

Monitoring & Logging – SNMP, Syslog, SolarWinds, PRTG, Zabbix, Splunk, Dynatrace, CloudWatch

Virtualization & Cloud – VMware, AWS (EC2, S3, Lambda, CloudWatch)

Infrastructure Support – Incident Management, Root Cause Analysis, Change Management, GxP Compliance, Vulnerability Management, Patch Management, Documentation, On-Call Support

PROJECTS

Manufacturing Control Network Enhancement (HCL Technologies)

- Enhanced the reliability of the **Manufacturing Control Network (MCN)** by implementing redundant network paths and failover testing for critical infrastructure.
- Managed network device configurations and backups, maintaining version control for **switch and firewall firmware** and IPAM records.
- Collaborated with automation and infrastructure teams to integrate new shop-floor systems, ensuring seamless connectivity and adherence to security policies.

Production Systems Monitoring & Alerting (HCL Technologies)

- Developed and tuned **infrastructure monitoring** solutions using Splunk and Dynatrace, configuring alerts for over 50 critical Java and .NET enterprise applications.
- Managed the incident response process for P1/P2 production issues, performing root cause analysis and coordinating remediation efforts with operations teams.
- Authored comprehensive technical documentation and operational runbooks for support teams, improving troubleshooting efficiency by approximately **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
