HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Owned the **Oracle** platform lifecycle, establishing standards for architecture, provisioning, configuration, patching, and upgrades across on-premise and hybrid environments.
- Engineered database performance and scale by diagnosing and resolving complex **Oracle** performance issues using diagnostics and system evidence, collaborating with application teams to address root causes.
- Built resilience and recoverability for **Oracle** databases, operating backup, restore, replication, and high-availability capabilities, defining and testing RPO and RTO expectations.
- Automated database operations using **Python** scripting and **Ansible**, transforming manual runbooks into safe, repeatable workflows for provisioning, access, and maintenance.
- Supported and standardized **PostgreSQL** and **Elasticsearch** platforms, contributing to their operation and integration while maintaining primary focus on the **Oracle** estate.
- Led platform change initiatives, planning and executing version upgrades and data movement for **Oracle** databases with validation and rollback strategies.
- Instrumented the database service by establishing **dashboards** and **alerts**, applying least privilege, secrets management, and auditing as platform defaults.

SKILLS

Database Platforms – Oracle, PostgreSQL, Elasticsearch, OpenSearch, Solr

Database Administration – High Availability, Backup & Recovery, Patching, Upgrades, Performance Tuning, Capacity Planning, Replication, Failover, Disaster Recovery, RMAN, Data Guard, ASM, CDB/PDB, Data Pump, AWR/ASH/ADDM, SQL Tuning

Infrastructure & Automation – Linux (RHEL), Bash, Python, Ansible, Terraform, Infrastructure-as-Code, CI/CD, Git

Observability & Security – Monitoring, Alerting, Dashboards, Auditing, Secrets Management, Encryption, Vulnerability Management

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

PROJECTS

Oracle Database Platform Automation

- Developed Python scripts and Ansible playbooks to automate the provisioning and configuration of new **Oracle** database instances, reducing deployment time by **40%**.
- Implemented automated backup and recovery workflows using **RMAN**, ensuring adherence to defined RPO and RTO targets and conducting regular restore tests.
- Integrated monitoring and alerting for critical **Oracle** metrics using **CloudWatch** and custom scripts, providing early detection of performance degradation.

PostgreSQL High-Availability Cluster Implementation

- Designed and deployed a high-availability **PostgreSQL** cluster utilizing streaming replication to ensure continuous data availability.
- Configured automated vacuuming and indexing strategies to maintain optimal **PostgreSQL** performance and query execution times.
- Established baseline performance metrics and configured **alerting** for key indicators such as replication lag and disk I/O, enabling proactive issue resolution.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
